The Heat®

Made from a blend of custom fibers and intricate twists, and a core made with CoreTech technology. The four strand Heat sets a standard in rope feel and performance. Designed for today's aggressive roping styles, The Heat provides a loop that is packed with body. The tip remains ahead of the swing for a more controlled and confident delivery. Lightweight and built for performance, The Heat maintains its original snappy feel, run after run.

NXT4™

The NXT is made of a revolutionary poly-blended fiber uniquely processed for a feel that is second to none. Using CoreTech technology, it is unlike any other rope on the market. The NXT4 is a four strand heel rope that helps ropers guide their tip for the Classic delivery, as the bottom strand finds its way to the ground with a wide open loop.

Powerline4® Lite

The Powerline4 Lite combines four strand construction with the feel and handle of the original MoneyMaker®. It consists of four strands of twisted nylon and polyester filament wound around a CoreTech nylon core. This increases the rope's body and widens the loop, allowing you to throw with more accuracy and control. Plus, its smooth surface permits faster feeds.

XR4®

The XR4 is the original four strand team rope with a CoreTech™ core. Its true 3/8" diameter maintains a familiar feel in your hands. The increased weight and body enable better tip feel and help you deliver more accurately. The straight nylon core helps make this rope the most forgiving rope you've ever felt. It feeds easier and faster, allowing you to shave vital microseconds off your time.

MoneyMaker®

The MoneyMaker didn't become the best selling three strand in the industry by accident. It earned its reputation thanks to a heavier body, less bounce and a more consistent feel. As the first blended rope with a heart of twisted nylon and polyester filament, the MoneyMaker created the class. Once a leader, always a leader. MoneyMaker is in a class of its own.

NV4®

The NV4 blends two premium nylon types for greater stability, life and balance. The fibers are then fused with high tensile poly for enhanced action and speed. A CoreTech™ core provides loop stability and tip weight. The outer diameter is smaller, making it faster and easier to control. The NV4 has a snappy, responsive feel for greater confidence and visible catches.

Ranch Rope

Typical to Classic's four strand construction, this rope is smooth and fast. We selected nylon for its durability and long life. Soft enough for anyone to handle, but tough enough for the hardest jobs. The CoreTech™ body offers a balanced loop with a weighted tip, making it easy to use for work on the farm or ranch.

CRR4S335XS
3/8" TRUE 35' XS

RK4™ Poly Kid Rope

A technologically advanced rope for the young roper, the Rattler® RK4 combines four strands of poly blend around a CoreTech™ core for an advanced feel with more body. The weight of the poly helps provide better tip feel, advantageous to young ropers developing their swing.

RK4POLY
7.5 26'

Zoom™ Kid Rope

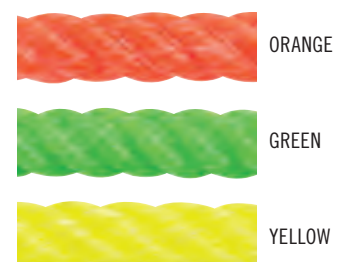

The Zoom is specially designed for young ropers or serious competitors in long-reaching dummy roping events. The Zoom is slightly smaller, with the same four strand CoreTech™ technology preferred by adult four strand users who need a lighter rope.

ZOOM5F30XS
5/16" FULL 30' XS

Xtreme™ Kid Rope

Go to the Xtreme! The four strand Classic® Xtreme is easy to handle, long lasting, and feels great. Kids of all ages can't resist Xtreme fun.

XKR41425XS
1/4" TRUE 25' XS

Jr MoneyMaker® Kid Rope

A junior version of the Classic MoneyMaker®. It may be smaller, but it has the same fast, smooth feel that is easy to handle.

JMK 528 S
5/16" TRUE 28' XS

Fire Cracker™ Kid Rope

The Fire Cracker is a nylon/poly blend four strand with plenty of feel and durability. And the size makes it the perfect play rope for kids of all ages.

FKR318XS
3/16" TRUE 18' XS

photo: RodeoReady

GT4®

The GT4 is a four strand that's easy to handle, with lots of body and a CoreTech™ core. Lots of body means a larger loop that stays open better than any rope in the arena, for more consistency. The GT4 is also much more durable than any conventional three strand. So, if you want long lasting life and body, you'll pick up the GT4.

Triton™

Triton is the triple threat in team roping. Created with an innovative blend of three unique fibers, the Triton is a four strand rope ideal for any roper's arsenal. Each of the three fibers brings its individual element to the rope. The poly fiber increases the tip size and feel. The first nylon fiber gives more body and twist for an open loop and zippy closure. The second nylon fiber adds forgiveness, consistency and overall balance to the blend. This recipe ensures the Triton's superior longevity and performance as a winning weapon.

Spitfire®

The Spitfire® is the first professional breakaway rope of its kind. Made specifically to reach and rope the neck, the Spitfire is made with a customized process using technologically advanced fibers. This allows the loop to stay open, and upon delivery close sharp, fast and tight around the neck. The enhanced tip has a weighted feel, helping you know where the loop is and guiding it to the intended target. The Spitfire shell is extremely smooth, allowing the rope to feed fast and easy. The body keeps the loop open to create a perfect storm for an aggressive, first-swing shot out of the box necessary to win in today's sport of breakaway.

SPITFIRE

Radar4®

The Radar4 consists of four strands of twisted nylon and poly fibers around a CoreTech™ nylon core. Designed for aggressive roping styles, its diameter is smaller in size. Yet the Radar provides great tip feel and accelerated tip action. The CoreTech core ensures more loop stability for greater loop control and high percentage catches.

Viper™

When five strands of low stretch poly fibers are woven around a solid braided core, you get speed and snap as quick as a viper's strike, with more consistency and less stretch than any calf rope available. With the feel of your favorite polygrass and the strength and stability that only CoreTech can give, like a viper - it's deadly accurate.

Goat Strings

Three ply construction for optimal hold, in four variations of stiffness for increased speed and control at all levels and age groups.

Novice (S): The softest feeling string in the line for the ultimate beginner.

Junior (MS): Designed for young, beginning goat tyers. Easier for smaller hands to handle.

Original (M): Precise blend between firmness for snappy ties and suppleness for control. Ideal string for goat tyers who are looking to add speed to their ties.

Pro (H): Offers optimum speed without sacrificing security. A truly fast string that is accurate run after run, for goat tyers who are comfortable handling a stiff string.

Boys': The perfect blend for fast ties, with a manageable length for tying goats.

Rope Bags

Designed with ropers in mind, our rope bags have room for everything you need in the practice pen or for competition. With a variety of styles that are made to last, we have the right rope bag for everyone.

Rope Compartments
Sized to fit and organize Classic and Rattler ropes perfectly, keeping them in place and protecting them from outside elements.

Pockets
Ample storage for things you need to keep close and convenient. Enclosed pockets and mesh pockets are great for holding keys, cell phones, gloves, rubber, etc.

Straps
Adjustable straps designed to be carried comfortably by shoulder or on your saddle. The Professional and Super Deluxe bags have a two strap backpack option.

Super Deluxe Rope Bag

For those who need it all. Enclosed padded rope compartment has dividers to keep ropes separated and neat. Front pocket holds accessories and cell phone. Carry as a backpack, sling over your shoulder, or buckle to the fence. Holds up to nine ropes.

ULTIMATE FLEXION

Legacy²

FLEXION
by Legacy.

Flexion By Legacy

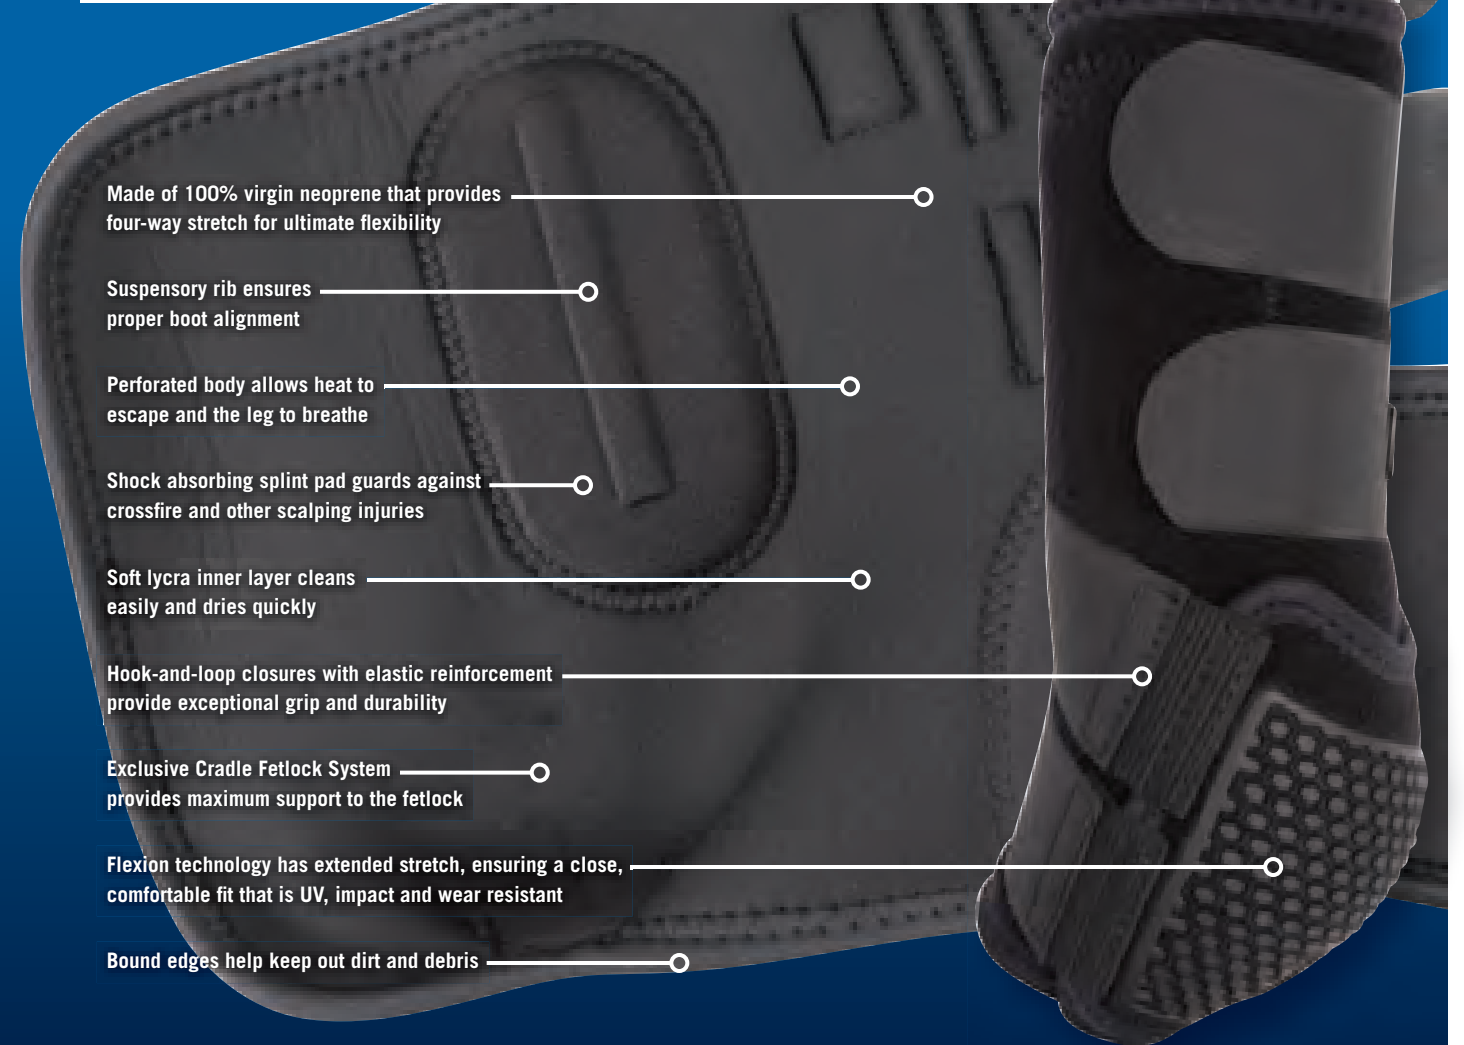

Flexion technology provides individual abrasive resistant cells on the Fetlock Cradle System with impact and wear protection never before seen in the equine leg protection space. Each Flexion cell can move and stretch individually, creating a flush, secure fit when wrapping the cradle around the horse's leg. The same Legacy2 design provides suspensory

support without inhibiting movement, reinforcing the horse's natural motion while protecting the critical structures of the leg using nature's design.

Extended height of the Tall Hind offers more tendon and suspensory support for horses with longer cannon bones. Available in Black and White only.

Sizes: Small, Medium, Large
Black, White also available in X-Large

FCLS102 FRONT
FCLS202 HIND
FCLS202T TALL HIND

- Made of 100% virgin neoprene that provides four-way stretch for ultimate flexibility
- Suspensory rib ensures proper boot alignment
- Perforated body allows heat to escape and the leg to breathe
- Shock absorbing splint pad guards against crossfire and other scalping injuries
- Soft lycra inner layer cleans easily and dries quickly
- Hook-and-loop closures with elastic reinforcement provide exceptional grip and durability
- Exclusive Cradle Fetlock System provides maximum support to the fetlock
- Flexion technology has extended stretch, ensuring a close, comfortable fit that is UV, impact and wear resistant
- Bound edges help keep out dirt and debris

NCHA Hall of Fame Rider of Over \$9 Million | NCHA Futurity Open Champion
Mecuria NCHA World Finals Champion | NCHA Superstakes Classic Champion

Legacy2™

Working with the horse's own natural support structures, the Legacy2 cradles the fetlock and provides suspensory support without inhibiting movement. Horses are naturally designed to stop, turn, and accelerate – the Legacy System reinforces these motions and provides protection to the critical structures within the leg.

Extended height of the Tall Hind offers more tendon and suspensory support for horses with longer cannon bones. Available in Black and White only.

Sizes: Small, Medium, Large
Black, White also available in X-Large

Nature's Design

The extensor branches of the suspensory ligament extend around the back of the ankle to support the fetlock joint during the weight bearing phase of the stride.

Legacy2's Design

The Legacy2 Fetlock Cradle System provides maximum support and protection to the fetlock and lower portion of the leg. It mimics the design of, and therefore reinforces, the ligament it is intended to support.

ClassicFit™

The ClassicFit is lightweight to allow natural movement with support and flexibility, and has a fast, simple application. Its suspensory sling is uniquely positioned for correct angle alignment to ensure lower limb support. The ergonomic design provides a clean, close fit and bound edges to keep out dirt and debris. The neoprene body and a shock absorbing inner pad reduces shock from impact. The boot's laminated jersey lining is comfortable and does not rub, bunch, or fold.

Sizes: Small, Medium, Large

Leather Splint

- Preferred by AQHA World Champions Jay Wadhams and JD Yates
- Maximum protection to the splint and sesamoid
- Protective shield guards against crossfire and over reach injuries
- Chap leather body is lightweight, durable and comfortable

Sizes: Small, Medium, Large

LSB100B

Leather Skid

- Preferred by PRCA World Champion Joe Beaver
- No-turn rolls ensure proper fit and prevent shifting
- Chap and latigo leather lined with foam for comfort
- Neolite skid cup and stainless steel buckles for durability

Size: Standard

LSB200N

Performance Skid

- Preferred by Andrea Fappani and Todd Bergen
- Specifically designed for reining horses, with great protection for any discipline
- Hermann Oak harness leather is lined with foam for comfort, durability and resiliency in extreme conditions
- Neolite skid cup and stainless steel buckles for durability

Size: Standard

PSB200B

Pro Reiner Skid

- Protects the performance horse from injuries caused by sliding stop maneuvers
- Extensively tested for durability, comfort and fit
- Provides complete fetlock protection and no-rub fit
- Outer shell is made from a full grain American cowhide specially treated to remain soft and pliable
- Skid cup shaped and positioned to make contact with the ground in the center of the cup and proven to withstand the coarsest ground conditions
- Two easy on/off double closures secure the boot close to the horse's fetlock

For extreme competition, Zone Saddle Pads provide extreme protection against pressure and impact. A specialized insert is filled with Zoombang™, an advanced polymer designed to reduce impact and pressure in a unique way. Zoombang has been used extensively to protect bull riders, NASCAR drivers, and professional football players with great success. This technology is available for the equine athlete as well. Zoombang is a semisolid material at rest. This allows it to conform comfortably to the horse and disperse saddle pressure evenly. Using cutting edge innovations in science, Zoombang reacts to impact by instantly becoming rigid, dissipating pressure and protecting the horse's back. To learn more about this leading-edge innovation in protective equipment, visit zoombang.com.

- Absorbs 80% of impact forces
- Soft, conformal protection allows body movement and support
- Polymer is soft at rest, adjusting to the contour of horse and saddle
- Reacts instantly upon impact, absorbing energy and protecting the horse
- Returns to its soft resting state after impact
- Unprecedented lightweight protection trusted by hundreds of professional athletes
- Science-based and significantly tested
- Engineered to manage, dissipate, and transfer energy
- Specially formulated for equine athletes to help reduce injury and stress
- Non-toxic and will not wear out, dry out, freeze, or melt

"Even after several hundred rides, the Zone pad continues to hold its shape."

JAMES BARTON
AQHA World Champion Calf Roper
and Professional Trainer

"We use the Zone pad every day on all types of horses, and it just works."

TODD BERGEN
NRHA & NRCHA \$2 Million Rider
10 Time NRHA & NRCHA
Futurity Champion & Reserve Champion

"I ride a lot of different horses with varied conformations. The Zone pad helps my saddles fit better and remain solidly in place."

CLAY LOGAN
AQHA World Champion and Pro Trainer

THE PAD THAT REACTS

THE ZONE SERIES pad is the only saddle pad that features a polymer protective material that changes its properties on impact to offer your horse the most comfortable fit while ensuring his protection, no matter how hard you ride.

ShockGuard® and ESP pads are made with innovative XPF energy-absorbing technology that is incredibly dense yet breathable, providing heavy duty performance without added weight

You want to provide the best protection for your horse's back because you know what's behind every fast turn, hard stop, and burst of speed you ask for. XPF Foam in ShockGuard® and ESP pads prevents injury, protects your horse's back, and increases performance. This high-tech, American-made foam is breathable and provides unwavering support. XPF foam creates the perfect shock-absorption situation for

your horse, conforming to his every move. It also provides shock-absorbing relief, helping to prevent soreness and injuries. XPF foam is successfully used in protective sports and military equipment as well as orthotic-prosthetic medical devices, proving ultimate impact protection. It provides more than six times better protection when compared to other conventional foam materials and is exclusively used in Classic Equine pads.

- Lightweight construction
- Energy-absorbing technology
- Dense, yet breathable to allow heat dissipation
- Back-conforming
- Open-cell technology for better bounceback after each maneuver
- Shock-absorbing relief

BIOFIT
CORRECTION PAD

BioFit® Pads feature a strategically placed “buildup” that helps fill in the missing muscle mass often seen behind the shoulder. Decreased muscle behind the scapula can cause the saddle to run “downhill” and collapse on the spine at the withers. The BioFit® Pad is designed to effectively level the saddle, providing comfort and improving the horse’s performance. BioFit® pads provide saddle fit solutions for narrow-

shouldered or high-withered horses, or horses that have muscle atrophy due to ill fitting saddles. Dense orthopedic grade felt absorbs shock and disperses pressure, while memory foam fills the void behind the shoulder with comfortable correction. A cutout over the withers offers greater clearance and spine relief. All BioFit® Pads are contoured for a close fit, offering excellent protection while solving saddle fit issues.

BioFit® Correction

- Strategic buildup placement fills in the void area, offering extra support
- Contoured design molds to conform to your horse’s back for added comfort and improved saddle fit

Felt

- Premium grade felt bottom with shock absorbing wool felt center

FEELING IS BELIEVING

Aura Cinch

- Tough, durable mesh exterior holds up to wear and tear
- Perforated foam center is soft yet durable, allowing air to flow freely
- Perforated neoprene with a jersey lining remains soft, smooth, and supple against the skin
- Dries quickly after use or washing
- Stainless steel hardware
- Do not wash/soak in bleach
- Recommended for use with leather latigos only, to allow the horse to expand naturally

Sizes: 26", 28", 30", 32", 34", 36"

CINCH FITTING TIPS

The cinch is the lifeline that holds your saddle in place, which in turn keeps you in a stable position during competition. Because there is so much riding on your cinch, we wanted to give you some helpful tips that will benefit both you and your horse.

- 1 Use a cinch that is designed with your horse's comfort in mind.
- 2 Choose a cinch by measuring the distance from one heart girth or "sweet spot" under the belly to the other.
- 3 When the cinch is tight, the dees should lay flat and clean against the horse's heart girth. If it rides above or below the sweet spot, it can cause soreness and discomfort.
- 4 To allow flexibility or "give" as your horse moves, use a cinch/latigo combination. Leather is a natural fiber that has "give". Leather latigos expand slightly and move with the horse as you ride.
- 5 Use a cinch with stainless steel hardware, which is long lasting and will not rust, corrode, or bind up. Classic Equine® cinches are made with stainless steel hardware to ensure you're getting the highest quality product possible.

MAGNTX⁺

MAGNETIC EQUINE THERAPY

MagNTX[®] therapeutic products are constructed with 1-1/2" bi-polar magnets. MagNTX magnets possess both north and south pole fields that run in horizontal planes. The north pole helps to expand the blood vessels and increase blood flow, while the south pole promotes the removal of toxins away from surrounding tissues. Using bi-polar magnets forces ions to rebound back and forth between the opposite magnetic fields, breaking up calcifications and carrying away toxins and other foreign debris, aiding the body's ability to heal naturally.

Science has proven beyond doubt that all living cells are electrical in nature. Each cell has a positive electrical charge at its nucleus and a negative charge on its outer membrane. This positive/negative polarization is what makes each cell function properly. When tissues are damaged, blood flow can be restricted, which limits the horse's oxygen and nutrient supply to the damaged area. Stimulating tissues and joints with bi-polar magnetic fields helps increase blood flow to a specific area and promotes a fast healing environment and natural pain killer.

Magnetic therapy compliments deep tissue penetration therapies by prolonging benefits in a non-invasive, cost and time efficient manner.

MagNTX products fit and stay in place with reinforced elastic hook-and-loop closures. Each MagNTX product uses a soft coated micromesh material that allows adequate airflow and is comfortable to the horse. Each bi-polar magnet is strategically placed for optimal effectiveness.

- We recommend using MagNTX products for a minimum of 30 minutes and no more than 12 hours at one time; ideal treatment periods vary
- Ensure the horse is adequately cooled down after a workout before applying magnets
- Do not use any oil-based or abrasive liniments under MagNTX products, as these substances can cause damage
- MagNTX magnets can be used in conjunction with preventative and treatment regimens
- Always consult your veterinarian when using magnet regimens

SHEET

KNEE WRAP

MagNTX[®]

MagNTX products aid in injury prevention and speed recovery by generating blood flow to the affected area. Soft mesh ensures proper position.

Knee Wrap

- Aids in the breakup of calcifications
- Helps to draw out fluid and promote healing

Size: Standard

EM22KW

Tendon Wrap

- Used for a number of lower leg ailments
- Speeds healing in bowed tendons, splint injuries and ankle strains

Size: Standard

EM22TW

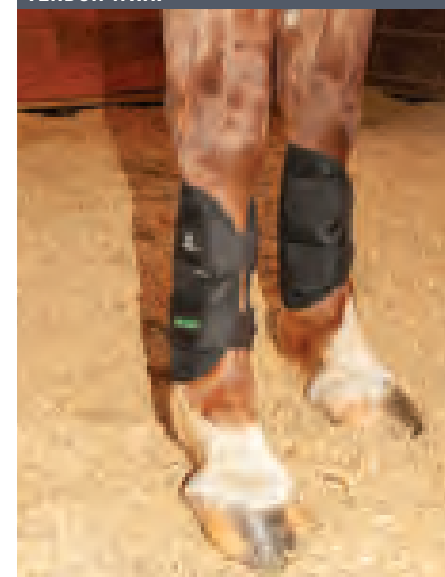

Bell Boot

- Reduces pain of the navicular area or coffin bone
- Increases blood flow to the hoof and aids in a wide range of foot issues

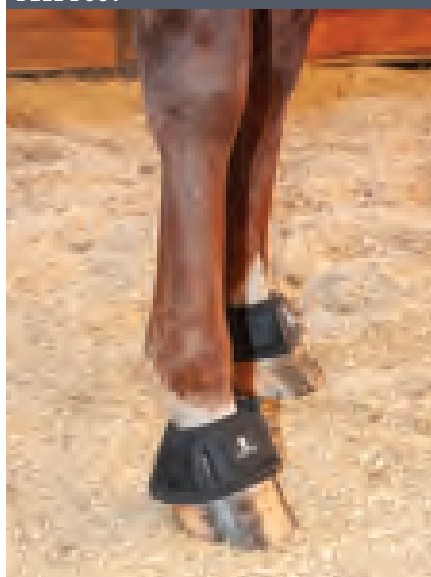

Size: Standard

EM22BB

TENDON WRAP

BELL BOOT

Sheet

- Great as a pre-warmup and pre-competition tool
- Generates blood flow throughout the entire body, promoting relaxation
- Magnets are strategically aligned across the muscle meridian lines of the whole body
- Helps to promote overall healing

Sizes: Small (72"-74"), Medium (76"-78"), Large (80"-82")

EM22SHEET

Mask

- Releases endorphins, which can aid in calming nervous horses
- Helps relieve some horses of anxiety related issues such as cribbing or weaving

Size: Standard

MASK

HOCK WRAP

REM Restoration Equine Mask

REST ASSURED

The **Restoration Equine Mask** ensures your horse gets a good night's sleep even with the lights on.

Whether your horse is at a show, a vet clinic or a public stable, the lights are on. Have you ever tried to sleep with the lights on? Like us, our horses need the absence of light to produce melatonin, allowing for optimal rest and recovery.

Quality sleep is a big focus for today's athlete. It maximizes performance and is linked to increased levels of melatonin. Melatonin rises at night. Our equine athletes are asked to perform at competitions but often are left under lights at night, especially at an event.

The REM mask uses blue light blocking technology to promote the natural production of melatonin for a more restful night of sleep while being exposed to artificial light.

Developed and tested by veterinarians. Patent pending.

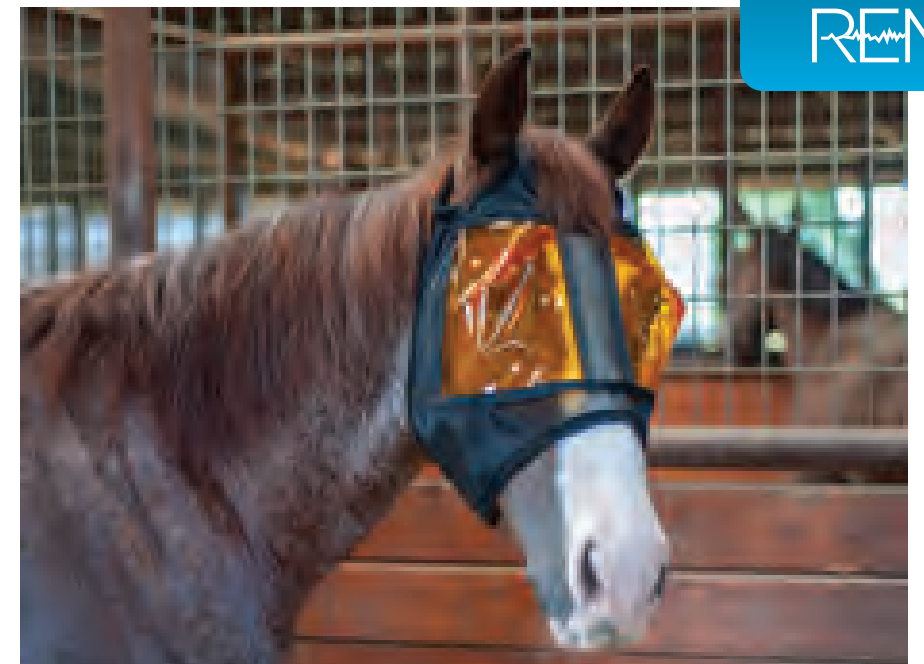

REM
Restoration Equine Mask®

REM: Standard

- Facilitates the melatonin rise needed for sleep and recovery, improving overall performance
- Use on horses who are stalled indoors where lights stay on
- Aids horses with eye injuries
- Eases travel anxiety

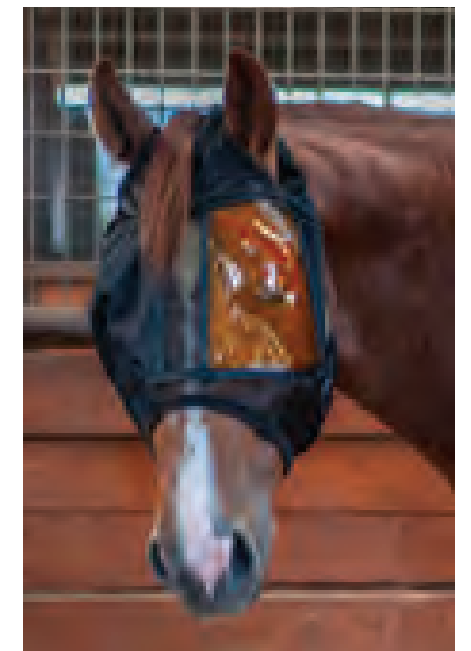

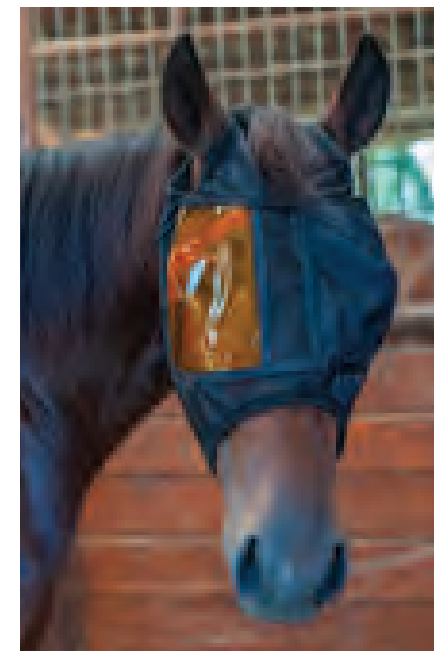

Sizes: Small, Medium, Large, X-Large

Medicine Hoof Boot

- Close-fitting boot keeps wounds, poultices and dressings clean
- Use over shoes and dressings, or on bare feet
- Ideal for treating abscesses, punctured soles and bruised soles
- Bottom tread offers more grip for sure footing
- Unique zipper closure keeps the boot in place
- Lasts two to three weeks under normal conditions
- Not meant for riding or turnout
- Sold individually

Sizes: 00, 0, 1, 2

MHB

CERAMIC INFRARED THERAPY

Ceramic absorbs the horse's own body heat then emits far infrared rays back into the body to increase circulation, bringing immune cells and oxygen to affected areas and decreasing inflammation

Ceramic Sheet

- Ceramic-infused threads in the mesh fabric help ease inflammation caused by injury or daily riding
- Provides a simple, hands-free form of therapy to help your horse recover
- Adjustable nylon leg straps, crossover adjustable belly straps and stainless steel closures allow a customized fit

Sizes: X-Small, Small, Medium, Large, X-Large
MCSHEETH

Ceramic Wraps

- Ceramic lining reflects the horse's own body heat to promote thermal infrared therapy
- Neoprene shell is secured with hook-and-loop straps
- Use in the trailer or the stall
- Set of 2

Sizes: Small, Medium, Large, X-Large

CECW CERAMIC WRAPS
CECWI REPLACEMENT INSERTS

Quick Wraps

- Apply muds, sweats or liniments to your horse's legs quicker and easier
- Neoprene shell is secured with hook-and-loop straps
- Removable terry towel lining is soft and easy to clean
- Compatible with your own muds and liniments
- Set of 2

Sizes: Small, Medium, Large, X-Large

CEQW QUICK WRAPS
CEQWI REPLACEMENT INSERTS

Ice Boots

- Makes icing a horse's legs for injury or recovery a fast, easy process
- Removable encapsulated gel ice pack attaches to the shell with hook-and-loop strips for easy application
- Neoprene shell acts as an insulator to keep the ice pack cold
- Set of 2

Sizes: Small, Medium, Large, X-Large

CEIB ICE BOOTS
CEIBI REPLACEMENT INSERTS

Standing Wrap Bandage

- Tough, stain resistant bandage material for securing quilted standing wraps
- Easy to apply and remove, with large hook-and-loop fasteners for secure fit
- Minimal stretch helps to apply even pressure
- Set of 4

Size: 5-1/2" wide x 12' long

CESWB154

Quilted Standing Wrap

- Provides compression to help prevent inflammation
- Comfortable, durable quilting is padded to provide even pressure
- Bound edges keep out dirt and debris
- Black color looks cleaner and shows fewer stains than lighter wraps
- Set of 4 (2 front, 2 hind)

CEQSW154

Stud Breeding Boots

- Made of durable, textured neoprene exclusively for stallions
- Internal padding protects the inside of the knee from wear and tear while jumping the dummy
- Top two straps made longer for extended fit around the joint with three shorter straps extending to the bottom

Sherry Cervi
SIGNATURE
 COLLECTION

Sherry Cervi's Signature Collection bits have an excellent feel for quick pickup and release. Mouthpieces are stainless steel and available in many options and degrees of control.

"I see a lot of barrel racers who reach for the most severe bit in the trailer at the slightest resistance rather than following a natural progression. You should always start mild and work your way up only if needed. I recommend starting a colt or charging horse with mild bits to teach them to yield to pressure while building confidence and establishing correct body position. That's why I start with my smooth D-ring snaffle before anything else, and then move up to the Diamond Draw series."

-Sherry Cervi

Diamond Short Shank

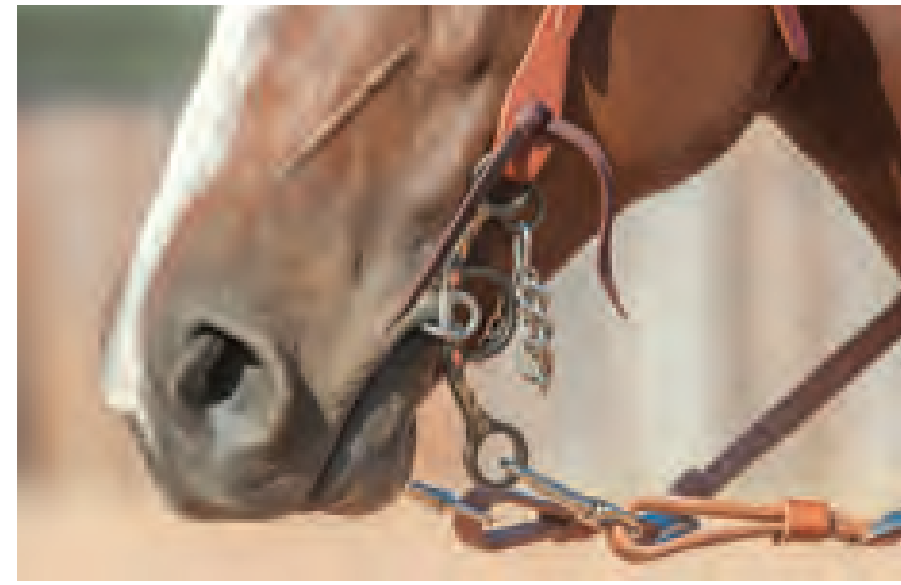

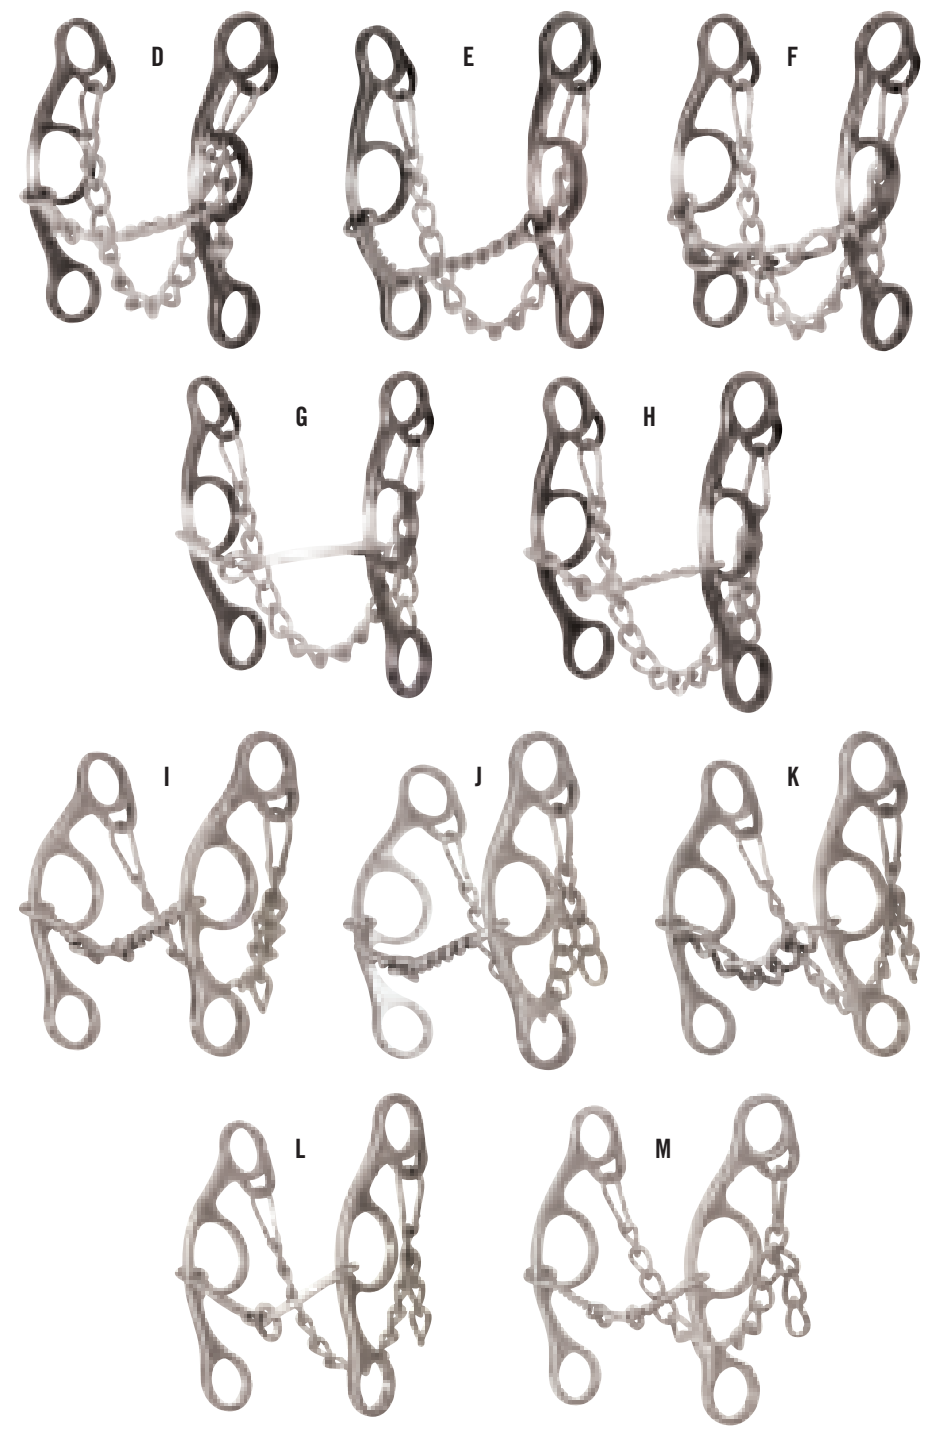

This is a bit for starting my barrel training, or on horses that have a sensitive mouth that do not need much bit. It is nice and soft, offering complete rate and body lift for turns. 6" shank.

Diamond Short Shank II

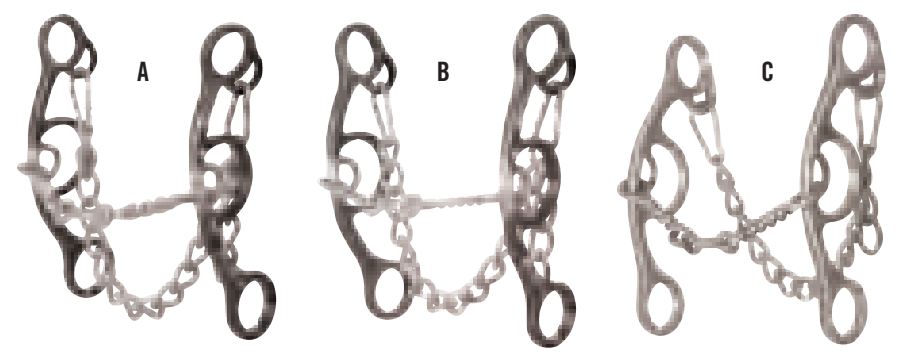

This is a bit for starting my barrel training, or on horses that have a sensitive mouth that do not need much bit. It is identical to the original Diamond Short Shank, but with a limited gag for horses that do not need the extra collection. It is nice and soft, offering complete rate and body lift for turns. 6" shank.

Diamond Draw

The Diamond Draw provides rate, flex, and lift. The weighted rings allow quicker release of pressure and amplify the feel to horse and rider. Copper wrapped o-ring mouthpiece encourages salivation and acceptance. The harness headstall has durable cord cheeks for smooth pickup and release with additional poll pressure.

Goostree Barrel Bits

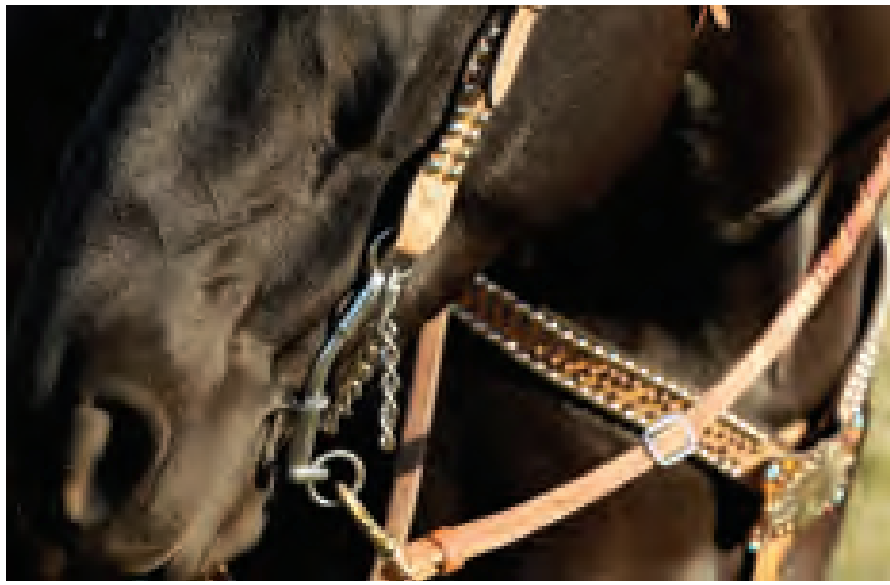

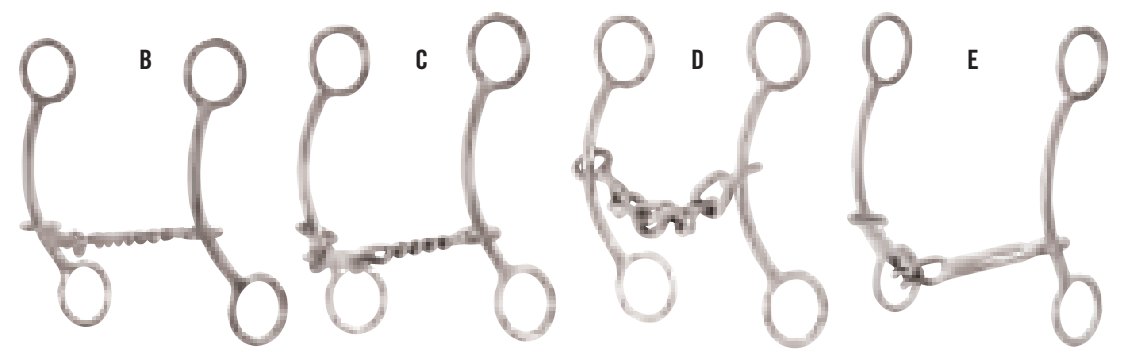

Carol Goostree is a true barrel racing legend and has been a trusted name in bits for many years. She is a former World Champion and has provided the western industry with the highest quality bits, original in design and ridden by some of the best barrel racers in the world. We are proud to bring you some of the most successful designs in the line.

Simplicity

Simplicity bits are designed for light-mouthed horses that need more flex with added control. These bits enforce natural flexion and rate going into a turn and are great transitioning tools for young horses that are ready to add more speed as they advance. Simplicity bits are trusted by some of the most successful barrel racers in the world. 5" shank.

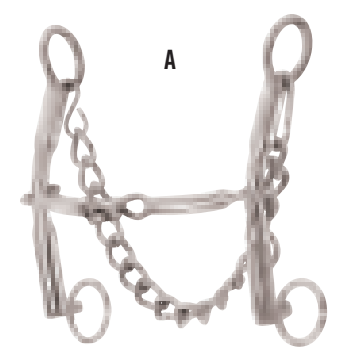

- GTSBIT**
B. GTSBIT12 TWISTED WIRE SNAFFLE
C. GTSBIT13 DR BRISTOL
D. GTSBIT30 CHAIN
E. GTSBIT31 CHAIN SNAFFLE

CG

The "CG" bit is one of the first bits Carol designed. She developed this bit especially for her champion mount "Dobre" in the late seventies. The chain snaffle mouthpiece and short gag action make this bit soft and forgiving in a horse's mouth. Horses tend to feel comfortable in this bit and show a lot of response without overreacting. It helps add control in the turns, and support and correct an overly bendy horse. The CG's 5-1/2" weighted shanks add more feel and encourages a proper headset.

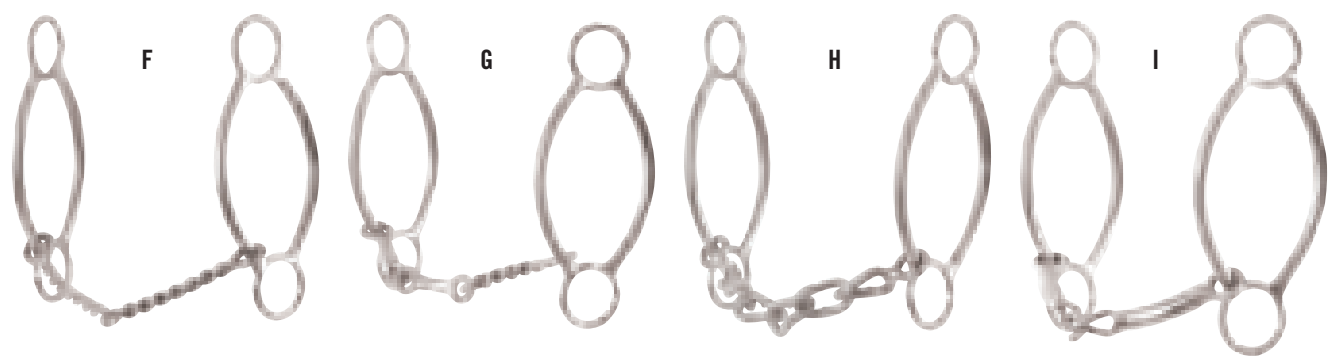

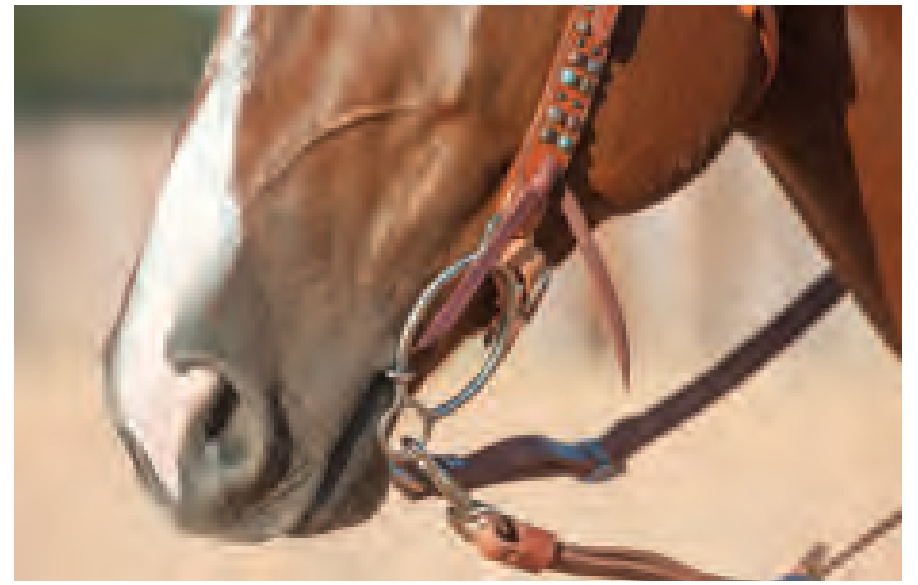

- GTCGBIT**
A. GTCGBIT31 CHAIN SNAFFLE

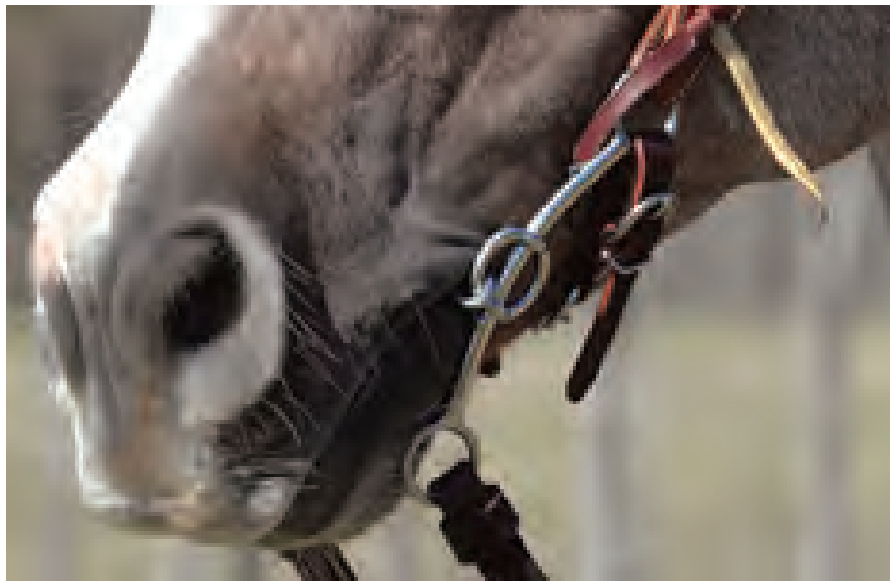

Simplicity II

Simplicity II bits encourage natural flexion with their balanced gag action. Designed for light-mouthed horses that need more flex and added control in the turn without restriction. 5" shank.

- GTSIIBIT**
F. GTSIIBIT12 TWISTED WIRE SNAFFLE
G. GTSIIBIT13 DR BRISTOL
H. GTSIIBIT30 CHAIN
I. GTSIIBIT31 CHAIN SNAFFLE

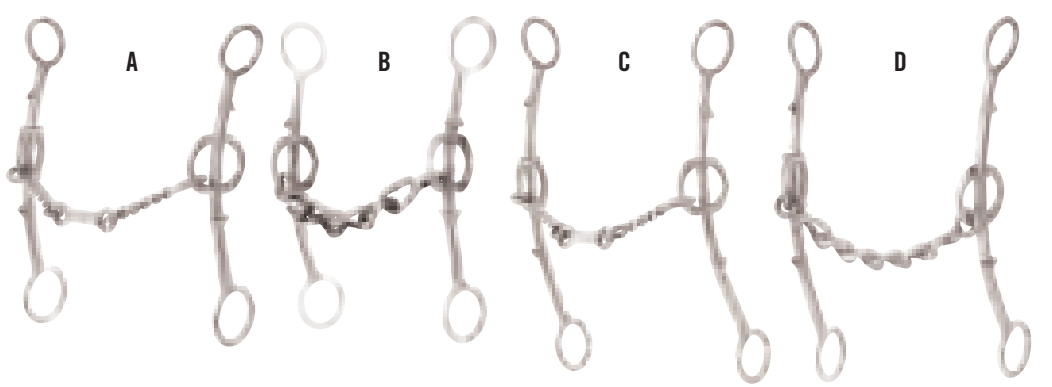

Double Gag

The Double Gag is for a light-mouthed horse that needs more direction and lift in competition runs as speed increases. The slight gag action gives the horse a chance to prepare for full contact before the bit fully engages. It is comfortable, safe and provides a great feel without being too harsh. Each bit can be flipped depending on desired leverage, essentially making it two bits in one.

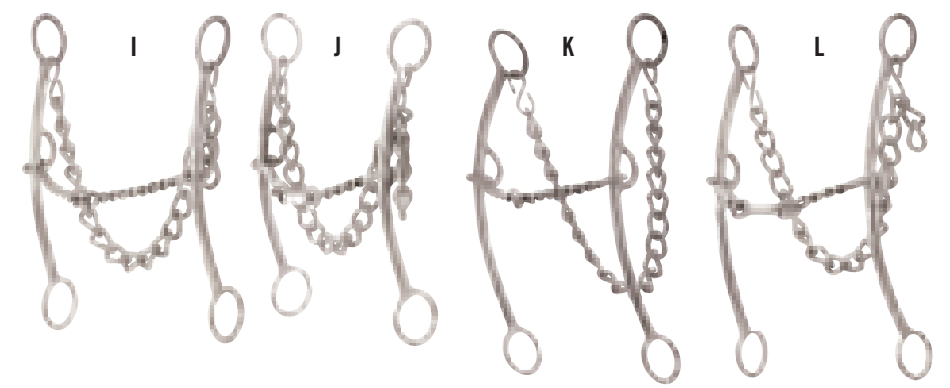

- GTDG**
A. GTDGSS13 SHORT SHANK DR BRISTOL
B. GTDGSS30 SHORT SHANK CHAIN
C. GTDGLS13 LONG SHANK DR BRISTOL
D. GTDGLS30 LONG SHANK CHAIN

Pickup

The Pickup Bit is available in both short (7-1/4") and long (8-3/4") shank versions and is Carol's next step up in control. Works well for obtaining shoulder control on seasoned horses that need help keeping their shoulder lifted going into the turns. Offers increased shoulder control and rate when needed. Horses that are harder mouthed usually respond well to the Pickup bit when lighter gag bits are not enough.

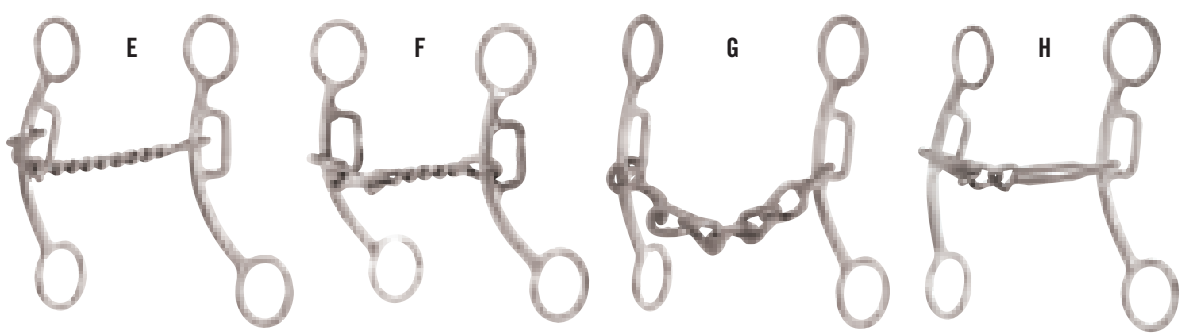

- GTP**
I. GTPSS12 SHORT SHANK TWISTED WIRE SNAFFLE
J. GTPSS13 SHORT SHANK DR BRISTOL
K. GTPLS12 LONG SHANK TWISTED WIRE SNAFFLE
L. GTPLS13 LONG SHANK DR BRISTOL

Delight

The Delight has been around for decades and continues to be a best seller. It is a light bit, but offers quicker contact and a little more control when needed. The Delight is one of the original bits in Carol's line, and is perfect for tuning an older finished horse or for seasoned colts going around the barrels. 4-3/4" shank.

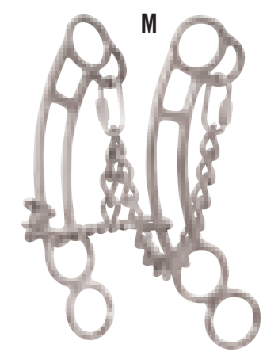

- GTDBIT**
E. GTDBIT12 TWISTED WIRE SNAFFLE
F. GTDBIT13 DR BRISTOL
G. GTDBIT30 CHAIN
H. GTDBIT31 CHAIN SNAFFLE

Goostree Quick Draw

Versatility and adaptability make the Quick Draw an excellent addition to any collection. The twisted wire dogbone mouthpiece is a basic tool for many disciplines. Gag length is variable by adjusting the headstall length, from 0" - 3". Two rein rings allow for either 5-1/2" or 6-3/4" shank length. The Quick Draw is excellent for collection at speed and teaching vertical flexion at many different levels.

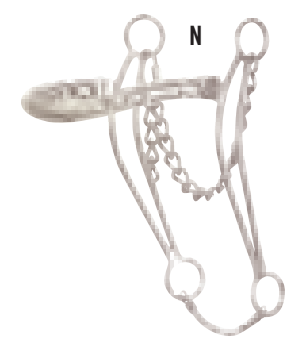

- M. GTQD13** DR BRISTOL

Goostree Hackamore

The Goostree Hackamore is an extremely versatile piece of equipment. It is designed with an 8-3/4" shank and chain nosepiece covered in a supersoft polyurethane coating, making it very flexible. Because it is so flexible, riders don't hit that "dead spot" commonly felt in other hackamores. It offers plenty of "whoa" when needed and can be placed higher on a horse's nose or lower, depending on the horse's level of sensitivity.

- N. GTHACK**

Loomis Barrel Bits

Joyce Loomis-Kerne, a former WPRA & AQHA Champion Barrel Racer and World Renowned Clinician, designed the original Loomis Gag Bit. Its one-of-a-kind design has been trusted by some of the most prominent horse trainers for years.

Loomis Gag

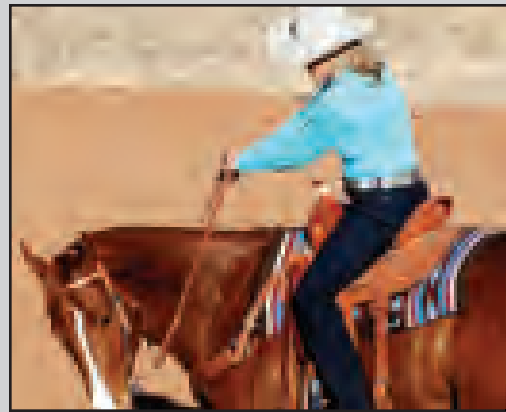

Loomis Gag Bits are trusted by professional horse trainers to start colts or tune finished horses. They work great for transitioning from the ring snaffle, providing additional lift to control the horse's nose, poll, rib cage and shoulders. Excellent tool for teaching collection and lateral maneuvers. Durable cord cheek pieces on double stitched chocolate leather headstall. Smooth Snaffle is stainless steel. Twisted Wire Snaffle has a sweet iron mouthpiece with stainless steel cheek. Ready to use - all you need are reins.

Slip Ear

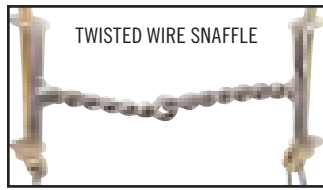

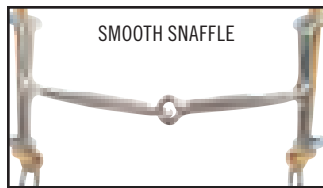

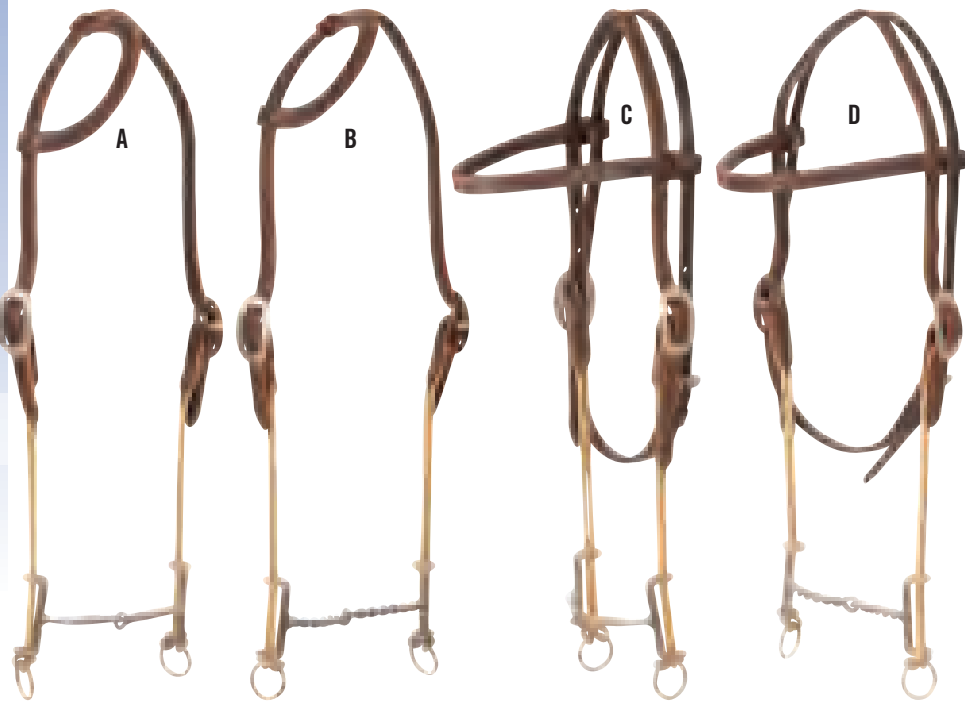

- HFLG

Loomis Gag Bits are used and endorsed by Dena Kirkpatrick

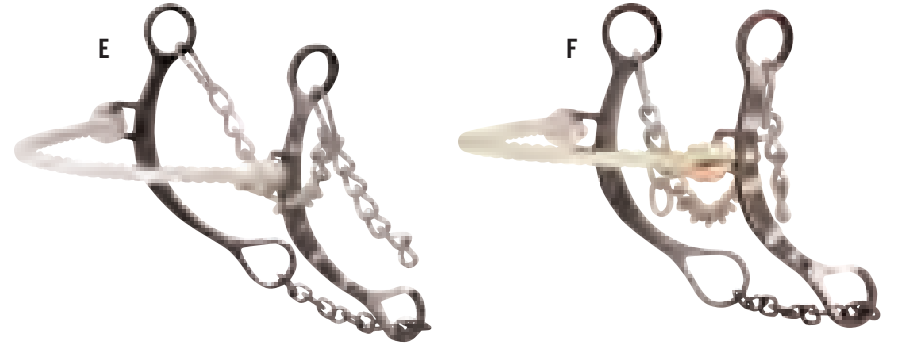

Bozo Sidepull

The Bozo Sidepull is a replica of the headgear World Champion Barrel Racer Kristie Peterson used on Bozo. It allows your horse to be comfortable enough to really run in, yet gives you enough control to rate and regulate the run. It helps correct a horse that is over-bending, and is more for the finished horse than for training.

TIP: Kristie recommends that you ride your horse in the Bozo Sidepull a few times before running in it.

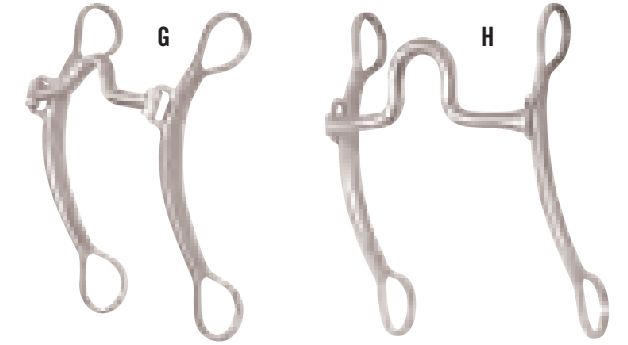

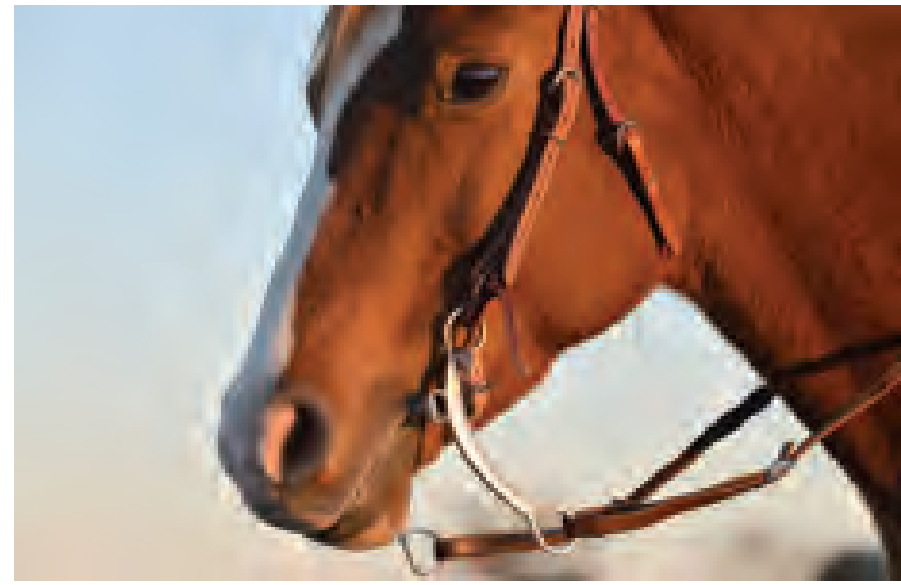

- BOZOSP
- E. BOZOSP ORIGINAL (6-3/4" SHANK)
- F. BOZOSP SHORT SHANK (6" SHANK)

Shoulder Holder

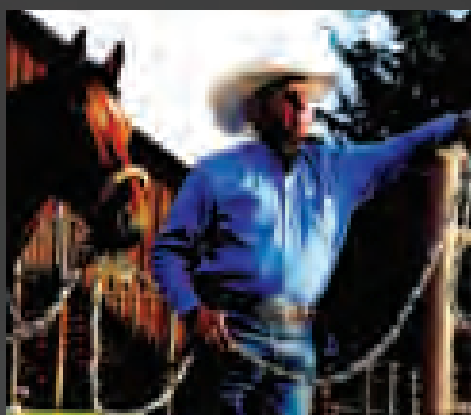

This is a great bit for elevating a horse's shoulder going into a turn. It aids the rider in holding a horse's shoulder steady, maintaining a more optimal body position around a barrel. Very fair and forgiving, the mouthpiece is set forward on the shank, which helps increase lift and lateral movement. This bit helps to maintain forward motion on horses that anticipate a turn. The Shoulder Holder is also a great tool for retraining man-made habits in aged horses. 7-1/4" shank.

- SHBIT
- G. SHBIT74 LOW PORT
- H. SHBIT75 HIGH PORT

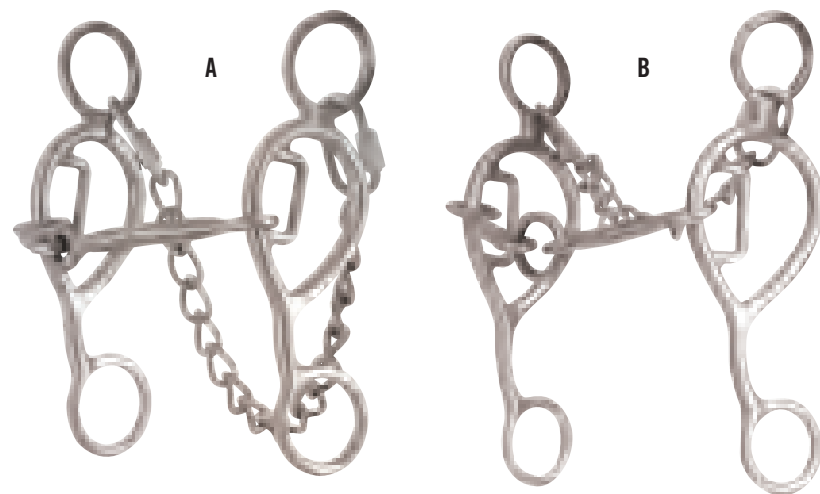

Les Vogt is a 15-time world champion horseman who has been honored in the NRCHA hall of fame three times. He is known as "The Trainer's Trainer," sharing his knowledge by giving clinics worldwide.

Turbo Collection

Satin-finished tempered steel shanks and pinchless sweet iron mouthpieces. Calculated shanks and the pre-signal gag design keep horses responsive.

5-1/2" Shank Snaffle

Shank Level 1: 5-1/2"
Mouthpiece Level 1: Snaffle
Gag Length: 7/8"

Snaffle mouthpiece combined with easy leverage and limited gag encourages lateral flexion and suppleness. Great for fundamental training in younger horses.

A. LVBB7

6-1/2" Shank O Ring Snaffle

Shank Level 2: 6-1/2"
Mouthpiece Level 1: Ring toggle snaffle
Gag Length: 1-1/8"

Smooth ring toggle mouthpiece with medium leverage and gag encourages rate, lateral bend, and poll control. Provides lift for intermediate horses.

B. LVBB8

Turbo Collection

7-3/4" Shank Ported

Shank Level 2: 7-3/4"
Mouthpiece Level 2: Loose port snaffle, designed for pressure points on the outer mouth bar areas
Gag Length: 1-1/2"

The tool that creates smooth lateral neck and hip control without creating fear in intermediate and advanced horses. Limited gag slide action with higher leverage encourages rate, respect, and collection.

C. LVBB9

6-1/2" Shank Snaffle

Shank Level 2: 6-1/2"
Mouthpiece Level 1: Snaffle
Gag Length: Unlimited

Lower leverage helps make your horse more user friendly. Specially designed for soft-mouthed horses that need front end elevation. Great tool for collection education and maintenance.

D. LVBB10

7-1/2" Shank Dogbone Snaffle

Shank Level 3: 7-1/2"
Mouthpiece Level 3: 1/4" square with copper roller
Gag Length: Unlimited

This bit gives you respect without fear, with the unlimited gag slide action and medium-high lift leverage. Allows speed control, rate and lateral body control.

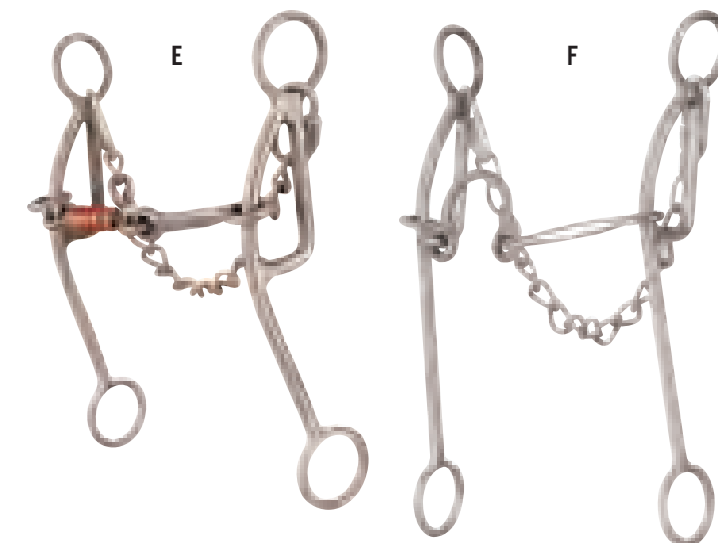

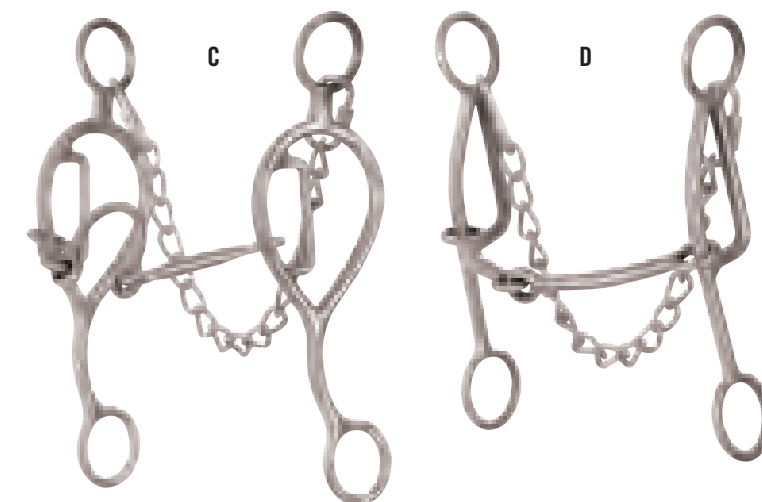

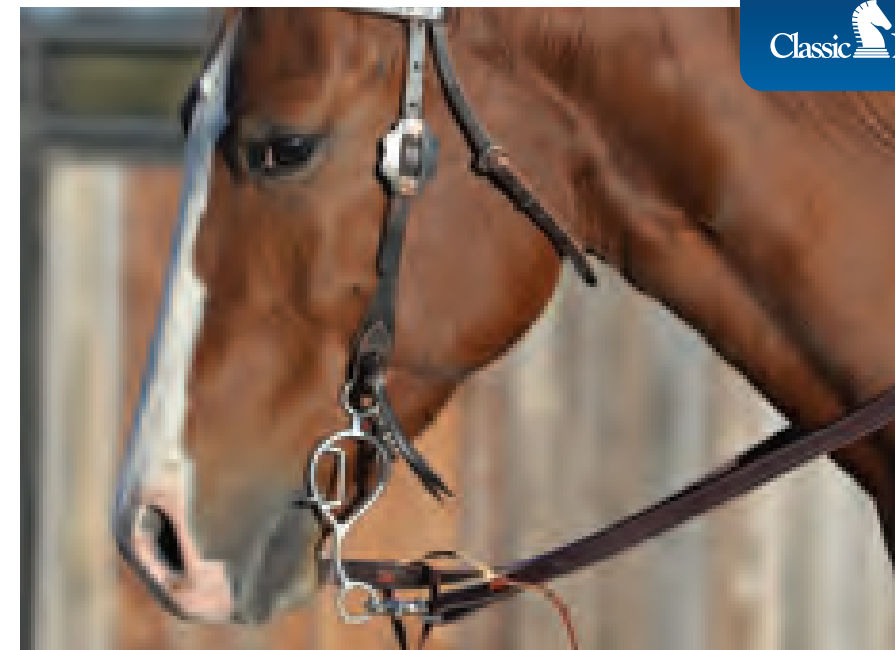

E. LVBB11

8-1/2" Shank Ported

Shank Level 4: 8-3/4"
Mouthpiece Level 4: 1/4" square bars with loose open port center
Gag Length: Unlimited

The unlimited gag slide action with high lift leverage encourages hindquarter engagement and weight distribution with hip and shoulder control. Compete to win at a high level on a broke horse.

F. LVBB12

“Over the past 50 years, I have learned how to calculate effective leverage ratios and combine them with creative mouthpieces to maximize each horse’s performance.”
-Les Vogt

Roper Collection

The Les Vogt Roper Collection is designed to increase performance in the arena, on the ranch, or on the trail with precision design combinations.

Dogbone Snaffle with Swivel Cheeks

Shank: 5-3/4"
Leverage Position: 1

Low leverage, easy mouthpiece is great for green or fragile horses.

A. LVRB1

3 Piece

Shank: 6-3/4"
Leverage Position: 1-1/2

Popular, versatile graduation bit with more leverage, feel, and respect on green horses.

B. LVRB8

Short Shank Correction with Swivel Cheeks

Shank: 6-3/4"
Leverage Position: 2

Allows for rate and communication. Shifts weight to the hindquarters and eliminates performance dead spots.

C. LVRB5

Swivel Port with Hinged Cheeks

Shank: 7-1/2"
Leverage Position: 2-1/2

Swivel port mouthpiece combined with high leverage allows lift and more control when shifting weight to the hindquarters. Flexible and slow reacting; good for strong, well-seasoned horses.

D. LVRB3

Square Port with Rollers

Shank: 6-3/4"
Leverage Position: 2-1/2

Contoured chain links find pressure points that achieve lateral flexion with rate and body control under speed.

E. LVRB6

Chain

Shank: 8"
Leverage Position: 3

Chain mouthpiece with high leverage. Flexible and slow reacting, good for stronger, well-seasoned horses.

F. LVRB2

Cowhorse Collection

The Les Vogt Cowhorse Collection includes NRCHA approved bits with sweet iron mouth with copper inlay. Satin brushed iron shanks with beautiful hand engraved German silver overlay.

1-3/4" Slope Port

Shank: 8"
Leverage Position: 1

Higher leverage drops the neck and slows curb action. Slope port mouthpiece gives tongue clearance and contact with the exterior of the bars. Great for green horses.

G. LVCH4

2" Flat Port Roller

Shank: 7-1/4"
Leverage Position: 2

Versatile mouthpiece with leverage. Communicates with respect, not too hot or too cold. Perfect for the nice horse that deserves to be bridled properly.

H. LVCH2

1-1/2" Port with Rollers

Shank: 8"
Leverage Position: 2

Higher leverage combined with a soft mouthpiece for more collection. Works well to eliminate high performance busy signals in and out of the arena and is a popular crossover bit.

I. LVCH6

2-1/2" San Joaquin Port with Tongue Relief

Shank: 8"
Leverage Position: 2-1/2

4:1 leverage ratio drops the neck and delivers perfect head position for precision performance. Great all around bit for most horses.

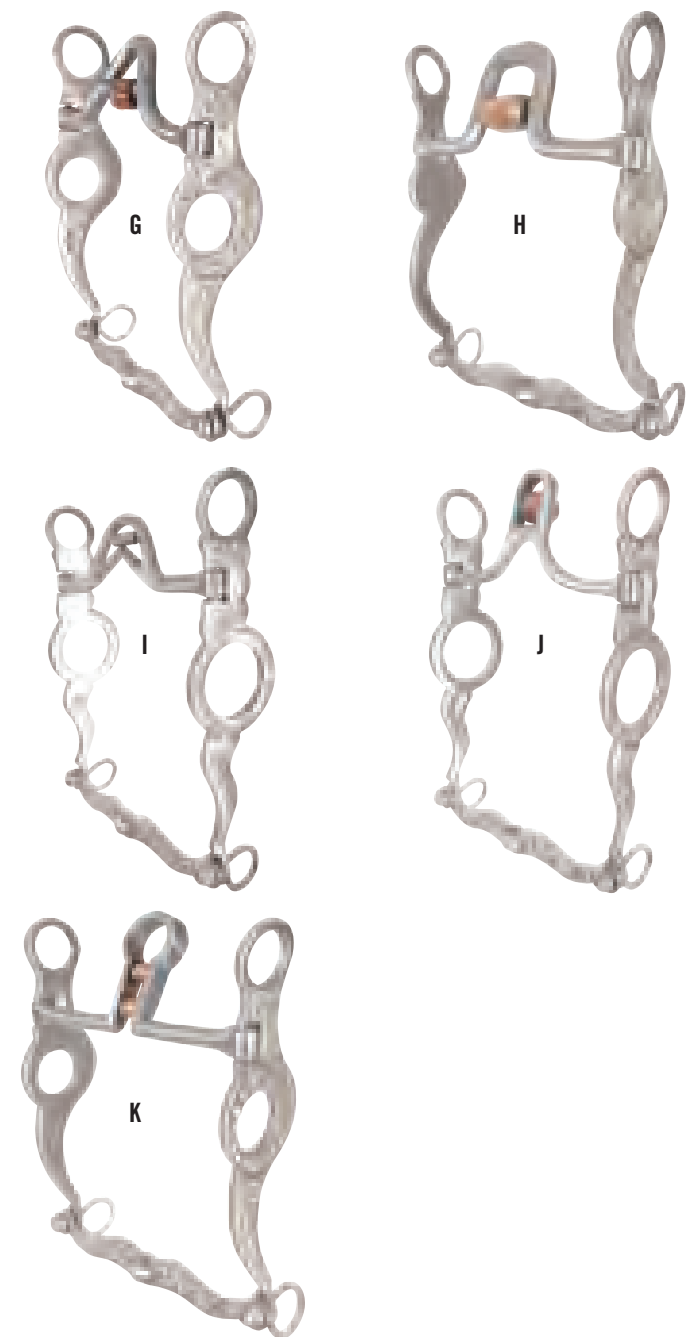

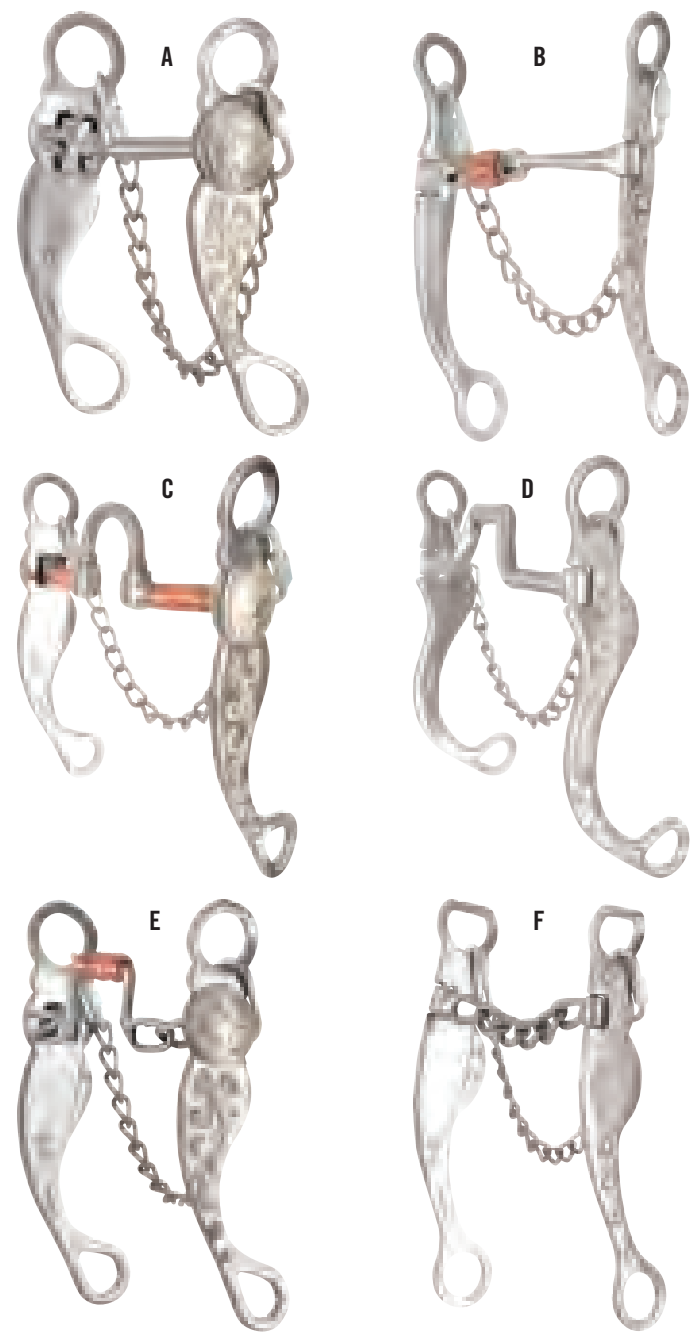

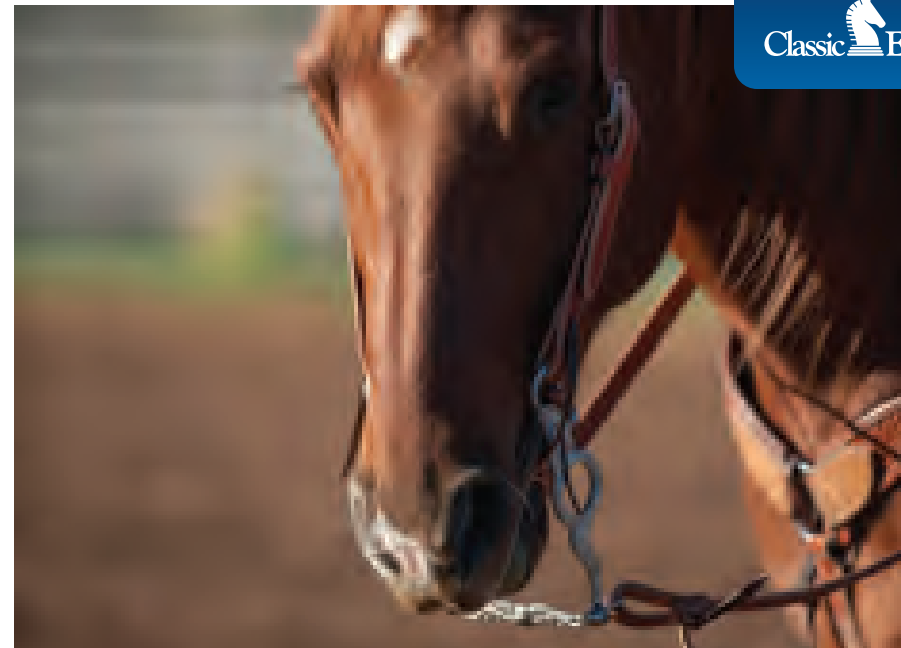

J. LVCH5

2-3/4" Keyhole with Double Roller

Shank: 8"
Leverage Position: 3

Provides ample feel with palate and tongue pressure for respect. Easy to use and great for tougher horses.

K. LVCH3

RICKEY GREEN BITS

BY CLASSIC EQUINE®

The Rickey Green bit collection was designed for team ropers to train, practice and compete. It features a 7" loose-cheek shank and an assortment of mouthpieces for collection and lateral flexion, giving ropers the control and balance needed for proper horse position and consistent loop delivery.

Rickey recommended using a firm leather curb strap or flat chain with these bits to allow the horse to feel and work off the bit rather than react to the feel and pressure of a biting curb.

Long Shank Snaffle

Contoured shape makes the mouthpiece comfortable, and the 3" purchase provides leverage to lift the horse's head and shoulder, keeping the hindquarters collected.

A. RGBIT218

Chain

Pinchless mouthpiece shaped to lay flat across the mouth and tongue, attaches to the shank and softly cues when pressure is applied. Allows for collection, breaking at the poll and lifting of the shoulder in preparation to stop.

B. RGBIT230

Sharp Setter

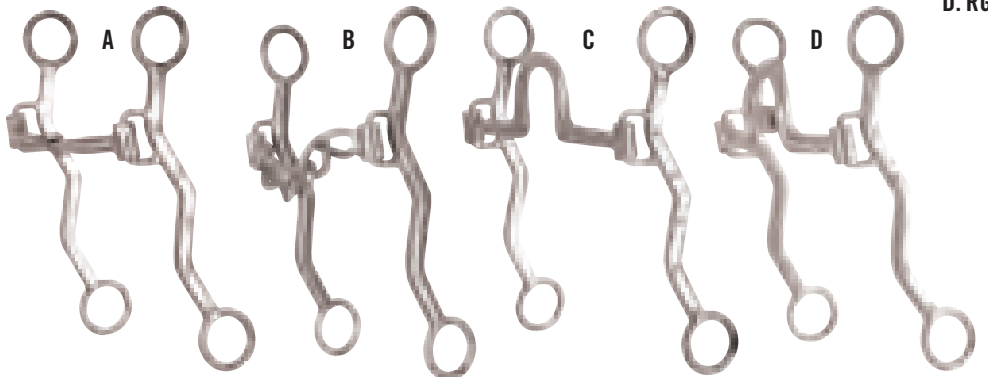

Encourages rate quickly under speed. Port reaches the top of the mouth and signals flexion at the poll, bringing the horse into your hand. Preferred on aggressive horses to maintain control.

C. RGBIT240

Setter with Roller

Unique mouthpiece rolls back when engaged, slowing contact and allowing time for collection and response to pressure. Develops the horse's proper headset and teaches him to carry the bit correctly. Under speed, helps rate smoothly and build consistency.

D. RGBIT241

JOE BEAVER BITS

BY CLASSIC EQUINE®

7-1/2" Shank Low Port

Allows the horse to push into the roper's hands. Length of the shank helps maximize the function of the jerkline. Its port style is shaped to be forgiving to a sensitive horse. Doesn't lock on and hold a horse's mouth, so it is a good bit for kids or novice ropers.

E. JBBIT2

7-1/2" Shank High Port

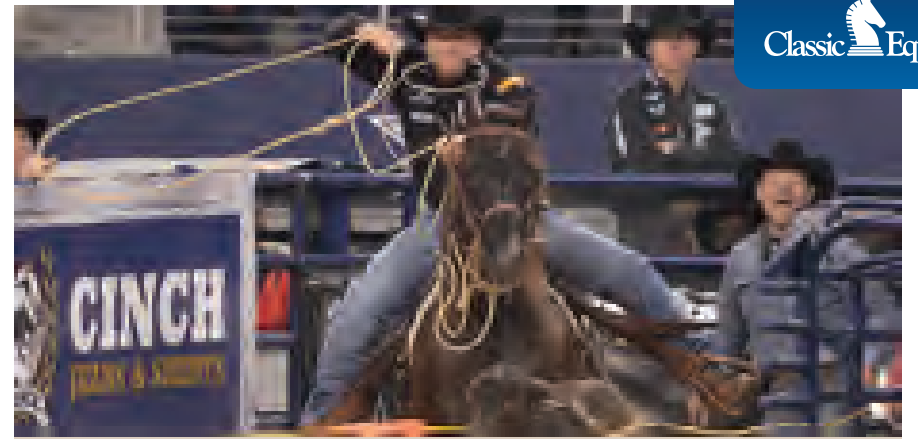

Offers more control on a horse that drops in the front and helps the roper keep his horse's weight shifted to the hind end. Offers more control on horses with a hard mouth. Increased "get back" action on horses that don't want to get back or yield to the jerkline on their own.

F. JBBIT1

8" Shank High Port

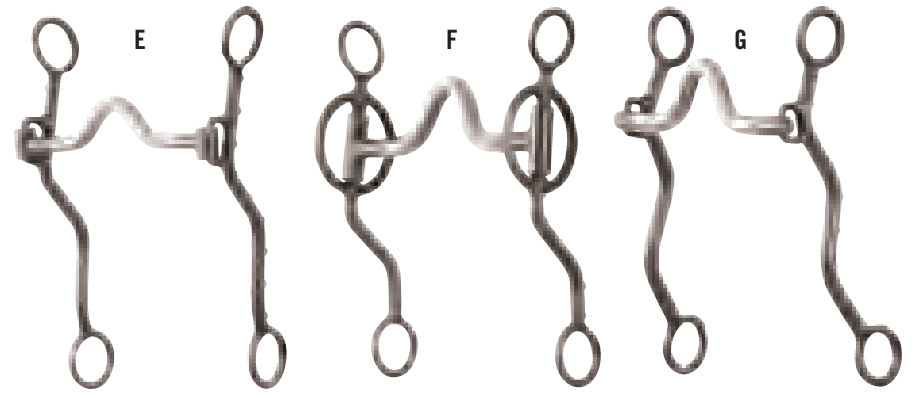

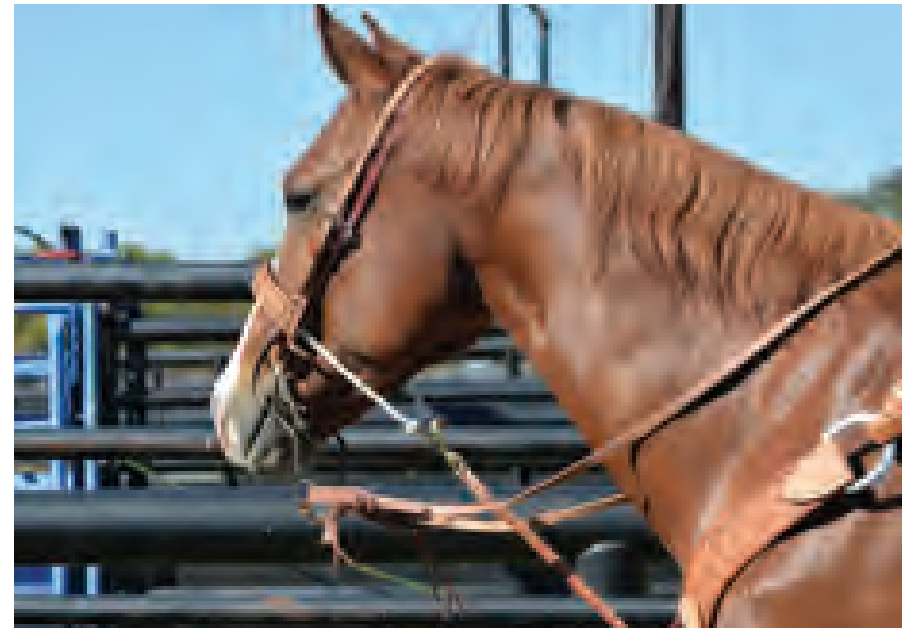

For the seasoned, veteran calf horse. Provides more control in the box and in the corner. 8" shanks provide maximum jerkline action. Works well for ropers with light hands or helps compensate for size and strength of the roper.

G. JBBIT3

Joe Beaver is an 8 Time World Champion Calf Roper with 22 NFR qualifications in Tie-Down Roping and Team Roping. Joe has dedicated much of his life to growing the sport, coaching the pros and teaching young ropers the fundamentals of Calf Roping. Joe conducts clinics, seminars and roping schools worldwide, in addition to horse training and public speaking appearances.

Classic Equine® is proud to offer his line of time tested Calf Roping bits. They are for everyone from novice and youth competitors to experienced professionals. His bits will help make up ground in horsemanship so the roper can focus on the calf. Ropers can depend on Joe Beaver bits for any style of calf horse, at varying stages of competition.

BITS & SPURS

In developing Classic Equine Bits & Spurs, we worked with dozens of the industry's top horse trainers. While all trainers have their own "secret" specialty bits, the basic styles of mouthpieces and cheeks used by most respected horsemen are surprisingly similar.

This is a complete biting system. Included are essential bits that are common to most every professional horseman's line of equipment in all western disciplines.

6" Cheek

The 6" cheek has a 2-1/2" purchase and 3-1/2" shank. This ratio (difference in the length of the purchase and shank) and the swept back shank design make it a mild cheek. Contact with the horse's mouth comes slowly as soft pressure to all points of contact. The main point of contact is the corners of the mouth, familiar from the O Ring. May also be used with a training fork or martingale to encourage collection and poll control. The mouthpiece is inlaid with copper to stimulate salivation. It is 5-1/8" wide, 3/8" in diameter, and curved for soft, evenly distributed pressure to the bars, tongue, and corners of the mouth.

Snaffle

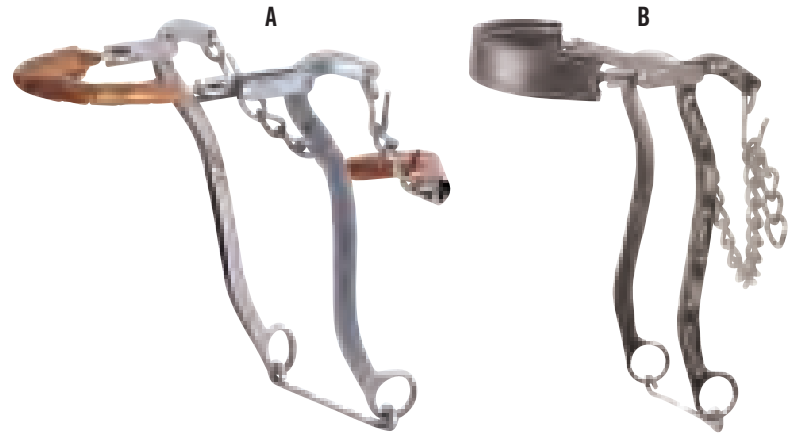

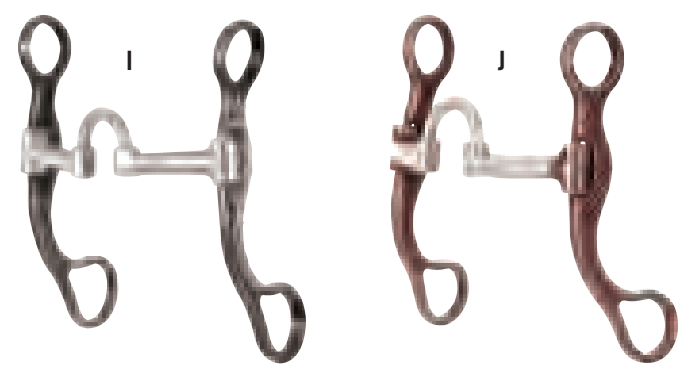

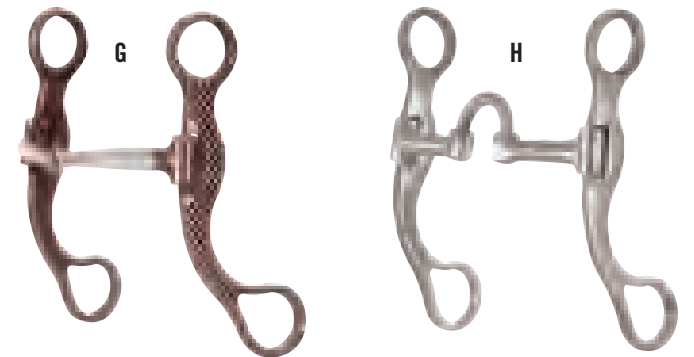

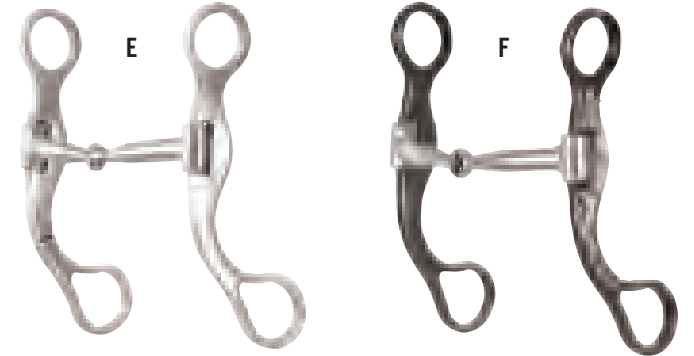

Softest of all shank bit styles. Transition bit for colts moving up from the O Ring. Soft pressure is applied through the curb.

- E. SSPSBIT6SS20 STAINLESS STEEL
- F. TBBIT36SS20 BROWNE D IRON
- G. RPSBIT6SS20 RASP DESIGN

Short Correction

A slight step up from the snaffle. Applies pressure to the chin, bars and corners of the mouth. Gives added pressure to the tongue for more feel.

- H. SSPSBIT6SS61 STAINLESS STEEL
- I. TBBIT36SS61 BROWNE D IRON
- J. RPSBIT6SS61 RASP DESIGN

Hackamore

9" cheek with solid noseband and adjustable chain. Pinch free, designed for more control.

- A. HACKSSPS STAINLESS STEEL
- B. HACKTB3 BROWNE D IRON

Ring Gag

Ring gag with an inlaid copper twisted wire snaffle mouthpiece. The gag action encourages the horse to respond before the bit is completely engaged. Gags are commonly used in training and competing in all western events.

5-1/2"

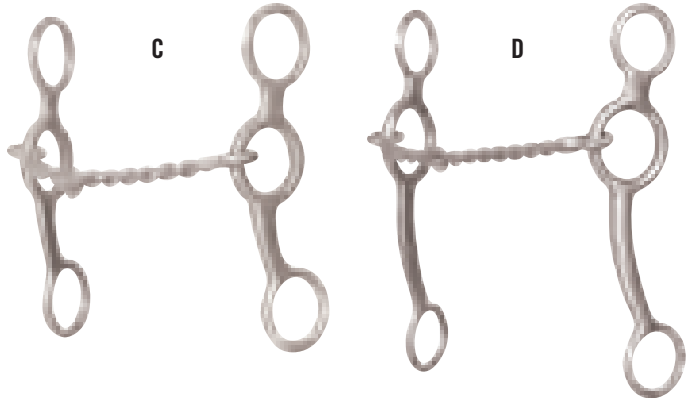

This gag action bit helps elevate the horse's shoulders.

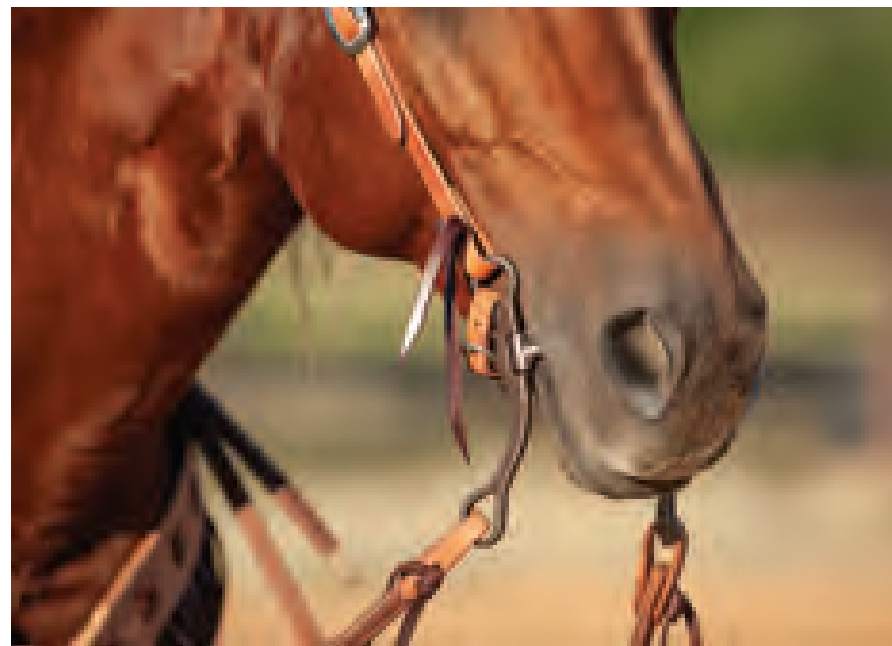

- C. SSPSBIT5RG25SS STAINLESS STEEL

6-1/2"

Reinforces collection and shoulder elevation. Longer shanks give it more leverage for increased control.

- D. SSPSBIT65RG25SS STAINLESS STEEL

7-1/2" Cheek

This cheek style can be used for training, pleasure riding or competition. It has a 2-1/2" purchase with a 5" shank. The shank is swept back like the 6" style, but to a lesser degree, offering more leverage. When properly adjusted it is still a mild cheek, but has plenty of control at increased speeds.

Snaffle

This is one of the most popular bits with all horsemen. It applies more pressure to the tongue than the dogbone, giving it a quicker response. Offers lateral pull and collection.

- A. **SSPSBIT7SS20** STAINLESS STEEL
- B. **TBBIT37SS20** BROWNED IRON
- C. **RPSBIT7SS20** RASP DESIGN

Chain

Stainless steel cheek with an inlaid copper chain mouthpiece. Good for reiterating bend and flex. Mild and pinchless sweet iron is comfortable, and applies even pressure to the corners of the mouth and tongue.

- D. **SSPSBIT7SS30** STAINLESS STEEL

Floating Spade

Stainless steel cheek with copper inlaid floating spade mouthpiece that wraps over the tongue with pressure. This is a great bit to introduce a horse to palate pressure as you transition to ported bits.

- E. **SSPSBIT7SS24** STAINLESS STEEL

Dogbone

This versatile mouthpiece wraps the tongue when pressure is applied. Pressure is also realized on the chin from the curb strap to the bars and corners of the mouth. This bit works well on well broke young horses or light-mouthed older horses.

- F. **SSPSBIT7SS29** STAINLESS STEEL
- G. **TBBIT37SS29** BROWNED IRON
- H. **RPSBIT7SS29** RASP DETAIL

7-1/2" Cheek

Ported Chain

Stainless steel cheek with a copper inlaid ported chain mouthpiece. This comfortable and pinchless mouthpiece allows for tongue relief while providing flex and bend. It also encourages the horse to break at the poll. Ideal for finished, well broke horses.

- I. **SSPSBIT7SS32** STAINLESS STEEL
- J. **RPSBIT7SS32** RASP DESIGN

Low Port Barrel

This highly universal bit works well for anything from training to pleasure or competition. The low port provides tongue relief as slight pressure is applied to the bars of the mouth and the palate. Each side works independently from the port for increased lateral flexion.

- K. **TBBIT37SS60** BROWNED IRON

Ported Twisted Wire

Advanced bit applies pressure to all parts of the mouth and sides of the tongue. Side pieces move independently with enhanced leverage and lift from twisted wire mouthpiece for desired stop and collection.

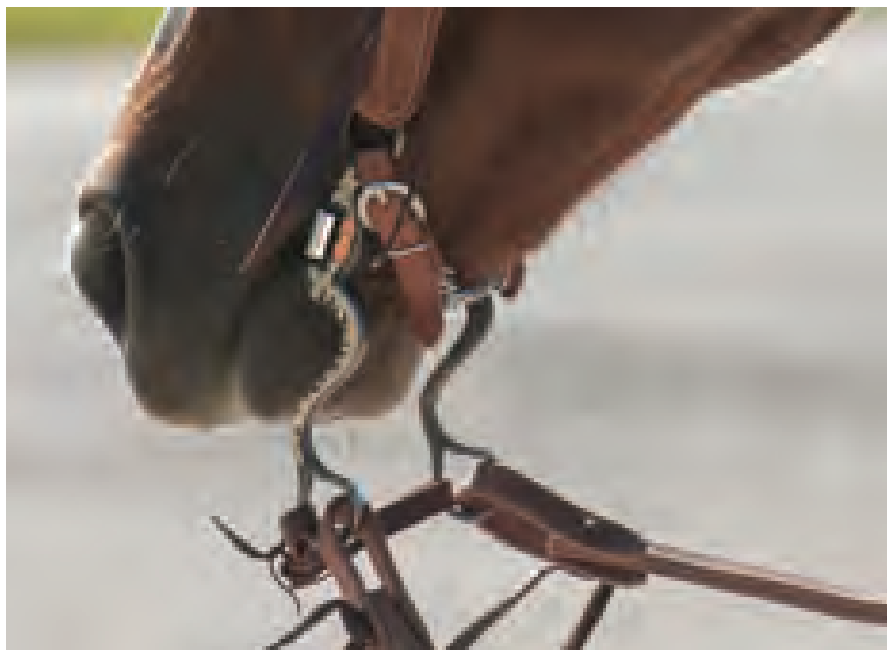

- L. **TBBIT37SS34** BROWNED IRON

Correction

Extremely popular with performance riders and trainers. Taller port creates more palate pressure. Mouthpiece applies increased pressure to the sides of the tongue. Designed for finished, well broke horses of all disciplines.

- M. **SSPSBIT7SS10** STAINLESS STEEL
- N. **TBBIT37SS10** BROWNED IRON
- O. **RPSBIT7SS10** RASP DESIGN

8" Cavalry Cheek

Designed for more control in finished performance horses. The angled shank causes immediate response. The purchase/shank alignment ratio increases leverage, creating pressure to contact points. Use for competition and schooling, not daily training.

1" x 1-3/4" Correction

Applies increased pressure to all parts of the mouth and sides of the tongue. Used to school horses that need to be reminded of stopping and collection.

- A. SSPSBIT8CS10** STAINLESS STEEL
B. TBBIT38CS10 BROWNED IRON

Square Hinge Port

Sides of the mouthpiece move independently for lateral control and flexion for lifting the shoulder, achieving collection, and promoting a level headset.

- C. TBBIT38CS70** BROWNED IRON

Ported Twisted Wire

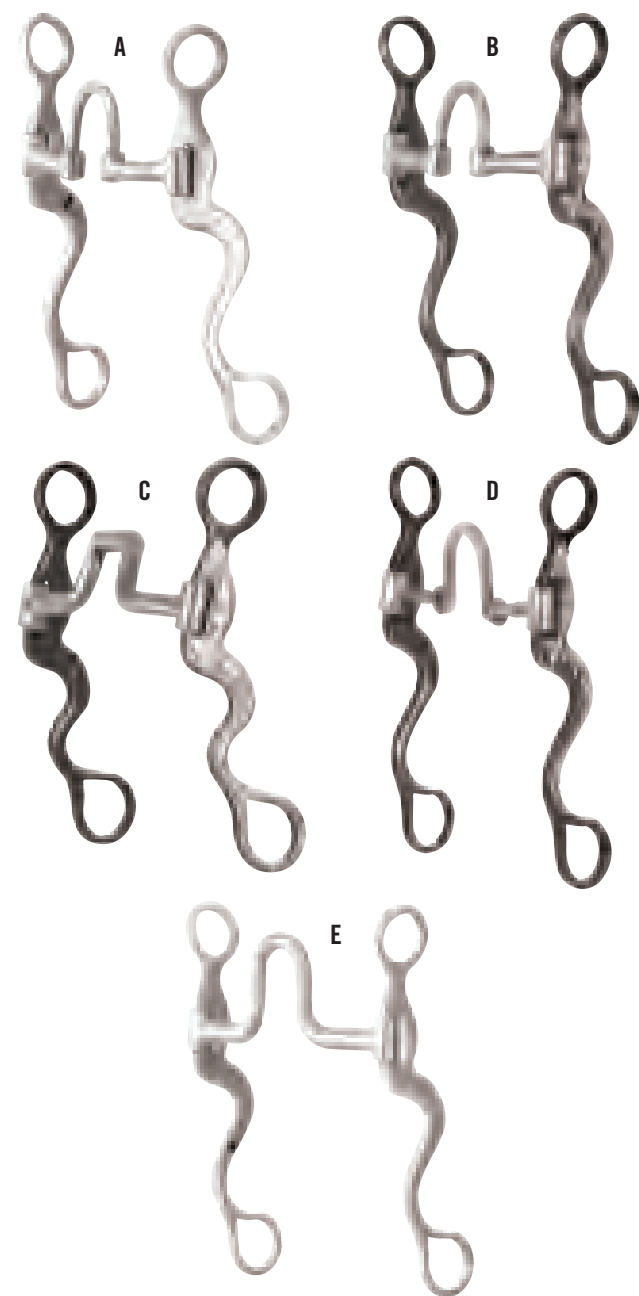

Advanced bit applies pressure to all parts of the mouth and sides of the tongue. Side pieces move independently with enhanced leverage and lift from twisted wire mouthpiece for desired stop and collection.

- D. TBBIT38CS34** BROWNED IRON

Ported

Inlaid copper mouthpiece with a higher port increases degree of contact with the palate, offering tongue relief with 1-1/2" width. For collection with a finished horse.

- E. SSPSBIT8CS43** STAINLESS STEEL

Snaffle O Ring

O Ring Snaffles are commonly used by trainers of all disciplines, for everything from starting colts to softening older performance horses. Use them to introduce a horse to a bit, teach a horse to follow his nose, lateral flexion exercises, or establish proper headset. They have a weighted feel for greater sensation during the pickup and release of pressure.

Smooth Snaffle

The softer of the O Ring styles. 3/8" diameter, 5" wide and curved to shape the mouth. Inlaid copper promotes salivation and greater sensitivity to the bars.

- F. TBBIT40R20** STAINLESS STEEL

Twisted Wire Snaffle

3/8" x 5" stainless steel mouthpiece. Creates greater sensitivity in the mouth.

- G. TBBIT40R25** STAINLESS STEEL

Snaffle D Ring

The D Ring Snaffle has a nice weight, balance and feel. Its design not only makes it durable, but it takes action to cue the horse. When released, it returns quickly to a resting state, providing release of pressure and adding consistency to your hands.

Smooth Snaffle

5" wide and curved to shape the mouth. Inlaid copper promotes salivation and greater sensitivity to the bars.

- H. TBBIT3DR20** BROWNED IRON
I. TBBITDR20 STAINLESS STEEL

Twisted Wire Snaffle

5" stainless steel mouthpiece creates greater sensitivity in the mouth. Great for training or softening your older horse's mouth.

- J. TBBIT3DR25** BROWNED IRON

Square Snaffle

5" stainless steel mouthpiece is designed for training, softening your horse's mouth, and building sensitivity.

- K. TBBIT3DR29** BROWNED IRON

Small Smooth Snaffle

5" stainless steel mouthpiece is designed for training, softening your horse's mouth, and building sensitivity.

- L. TBBIT3DR35** BROWNED IRON

PINK

PURPLE

Hanging Wash Rack

- A convenient solution that holds boots securely in place during washing
- Allows boots to dry quickly and thoroughly
- Long lasting nylon holds up to repeated washing
- Four rows of hook-and-loop material holds several pairs of boots at once

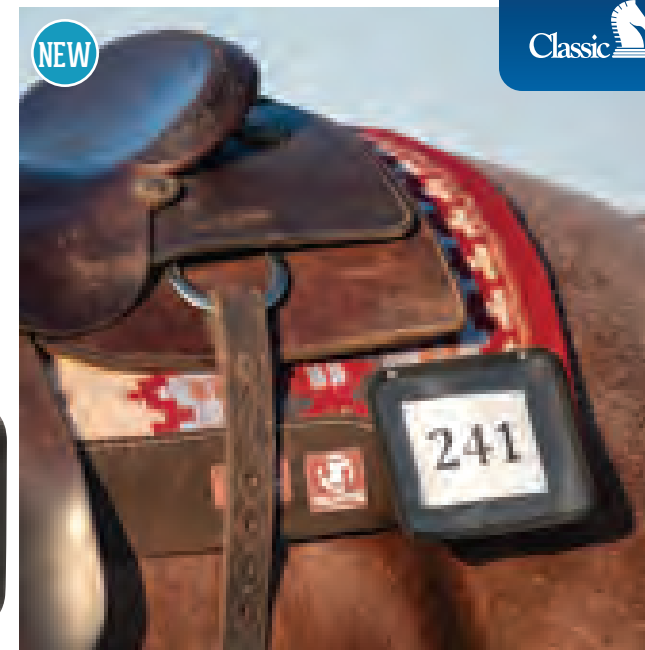

Size: 41" x 31-1/2"

HWR16

Saddle Pad Number Holder

- Keeps your contestant number tidy and clean for the duration of the show
- Screws keep it safely attached to your pad without damaging it
- Plastic covering keeps out dirt and debris
- Sturdy casing keeps your number flat and readable for the judge

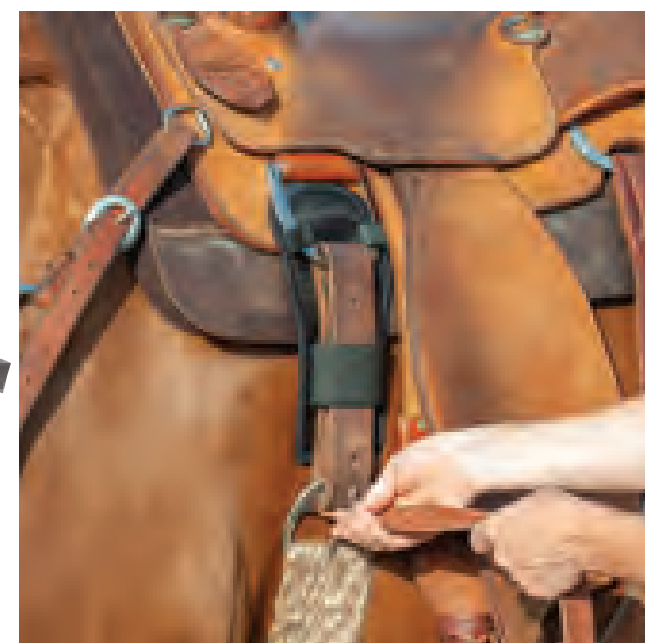

SPNHOLDER

Cinch and Latigo Protector

- Helps eliminate girth itch by protecting the latigo from passing fungus or bacteria from one horse to another
- Extremely breathable, with jersey against the horse's skin for comfort, a lightweight foam center and mesh exterior
- Attaches with two hook-and-loop straps to the saddle's dee ring then secures over tightened latigo
- Easy to wash
- Set of 2

CLPBK

Saddle Shims

- Tapered wedge closed cell foam
- Use to fill the small gap or space behind the horse's shoulder and under the front of the saddle
- Recommended to support, adjust for a better fit, or promote a more level fit
- Place shims just under the front of the saddle and on top of the saddle pad as needed

Size: Includes 2 Large (5" x 24-1/4"),
1 Small (3-3/4" x 24-1/4")

CESSHIMS

Shin Guard Sleeve

- Shields lower legs from impact during barrel racing competition
- Extends from your knee over your shin for complete coverage
- Made from the same material used to protect motorcycle racers' lower legs
- Breathable sleeves hold protective guards inside for a comfortable fit
- Lightweight and streamlined to fit under jeans
- Remove guards to easily wash sleeves
- Pair

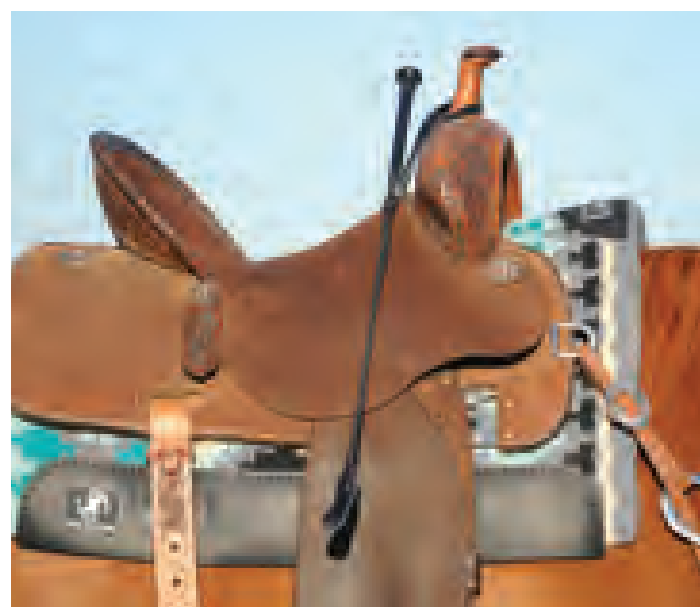

Sizes: Small, Medium, Large, X-Large

SHINGUARDSLEEVE

Bit Guard

- Prevents soreness and provides comfort
- Constructed of a water resistant, nontoxic rubber with a simple hook-and-loop closure that makes installation a snap
- Long lasting protection against pinching ensures improved performance

CG-BLA

Lightweight martingale designed to teach flexion and facilitate consistent rein cues. Adjustable for any headset.

A. SMART

Bonnet

Goes over the brow and the nose, with a ring to attach the tiedown strap. Made of adjustable round braid rope and high quality leather.

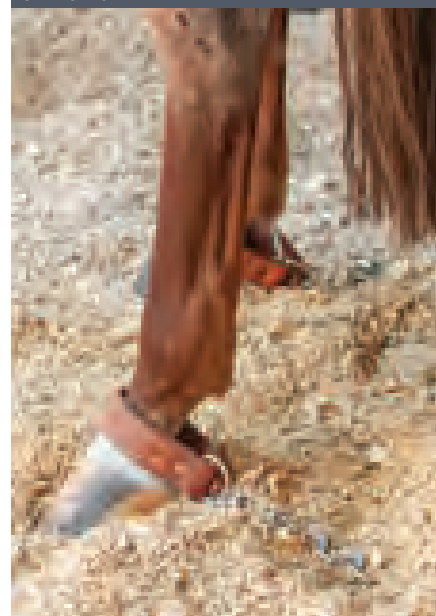

B. BONNETM

Kick Chain

Use to prevent a horse from kicking the stall. Closure has an easy on/off application and design includes a heavyweight one-size-fits-all dog chain.

C. KICKCHAIN

C. KICK CHAIN

D. PAWING CHAINS

Pawing Chains

Discourage pawing while a horse is trailered or tied. Small chains hang from a leather strap that buckles above the horse's knee. One size fits most. Hermann Oak harness leather.

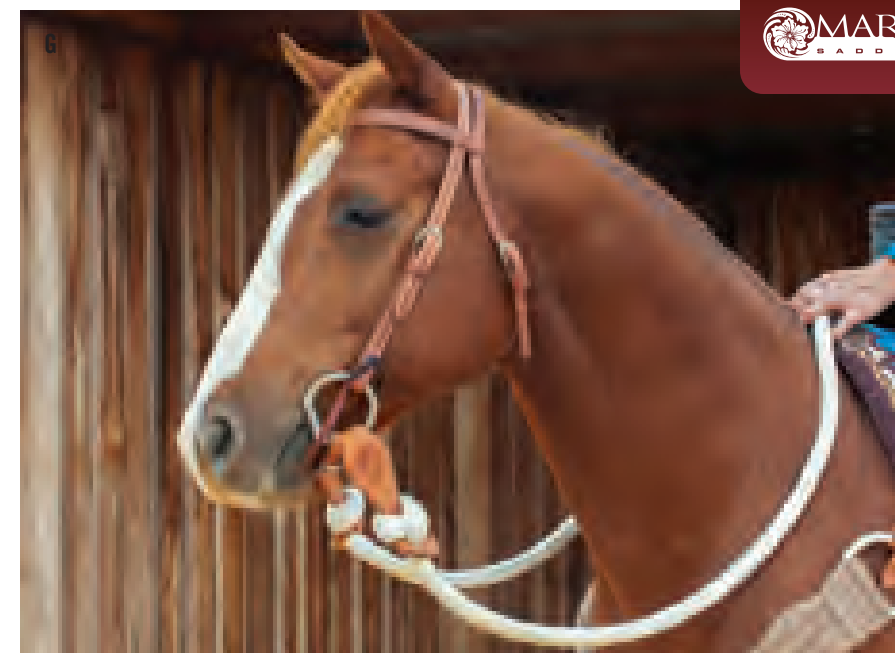

D. PAWCHAINS

Colt Rein

Rein your colt without the excess bulk of a long rein. Yacht rope has 3/4" diameter and shorter length for colts. Harness leather slobber straps.

Length: 7'

LRN

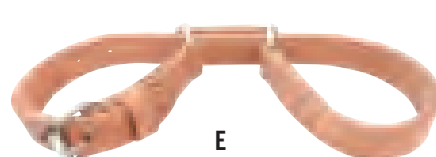

Phil Haugen Training

Over decades, Phil Haugen has developed a method of horsemanship on the foundation of common sense, trust and understanding. A respected trainer and clinician, Phil has developed these tools to help accomplish the training goals of all disciplines.

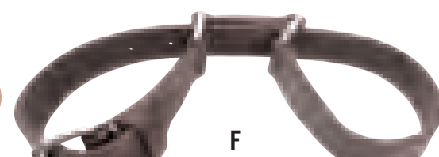

1/2" Braided Rein

Quick pickup and release helps the horse to understand your cues and improves reaction to your hands. The low stretch between the hands and bit keeps the horse from leaning on the bridle and provides immediate release for softness. Use with slobber straps to facilitate a softer feel.

H. SIDELINEHOB

Martingale

Classic German Martingale with tightly braided rope applies pressure to the bars and corners of the mouth, and provides instant release as the horse gives. This tool is useful to maintain that "softness" in the bridle with added speed and pressure during the transition to higher level training in its desired discipline. Split reins included.

PHMARTINGALESR

Flank Cinches

All Martin Saddlery flank cinches have biothane keepers for longevity. The contoured ends will not interfere with spurring. They are made of heavy saddle skirting

with a latigo liner and sewn together with heavy nylon thread. Then they are hand rubbed and the edges are dyed. Roller buckles are secured with copper rivets.

Sizes: Large (32" x 32"), X-Large (34" x 34")

PP-BLA-WE

CASHEL® CUSHION PADS

Engineered to provide outstanding back protection and shock absorbency, Cashel® Cushion pads are made with a unique closed cell foam originally designed for the aerospace industry for weight distribution and shock reduction. They will not collapse or absorb moisture and bacteria the way open cell foam pads do, nor will they retain heat or add unnecessary weight the way liquid gel pads do. Extremely lightweight and conforming to your horse's back, they help relieve pressure points and are tapered at the edge to eliminate ridges, allowing closer contact with your horse. They go label side up with your saddle

directly on top. Recommended for use over a navajo, felt liner, or quilted pad. Clean with water and store on a smooth surface.

CORRECTION CUSHION PADS

Correction Cushion Pads aid in providing optimal comfort and protection and help adjust the fit of your saddle against the horse. They provide an easy way to help horses with muscle atrophy behind the shoulder or other conformational obstacles through the balanced distribution of saddle pressure.

Flat Cushion Pads

Even thickness with tapered edges to help relieve pressure points and allow close contact with your horse.

Trail Kit

The Trail Kit ties in front of your English or Western saddle and allows for one-handed access to your critical items like sunscreen, cell phone and area map. The Trail Kit lies flat just in front of the swells of your saddle and won't interfere with your ride. Complete with a double sided clear map pocket that also acts as a waterproof cover for the contents in your kit. Includes two padded pockets for breakables and has built in elastic loops that can be used to carry a small flashlight, pepper spray or hoof pick. Black. Contents not included.

TK-BLA

Grabber Holder

Sometimes you need a hand grabbing a rope from the ground when you're in the saddle. Attach this leather keeper to your back billet to keep your reaching hook handy when you're in the saddle and need it most. Grabber not included.

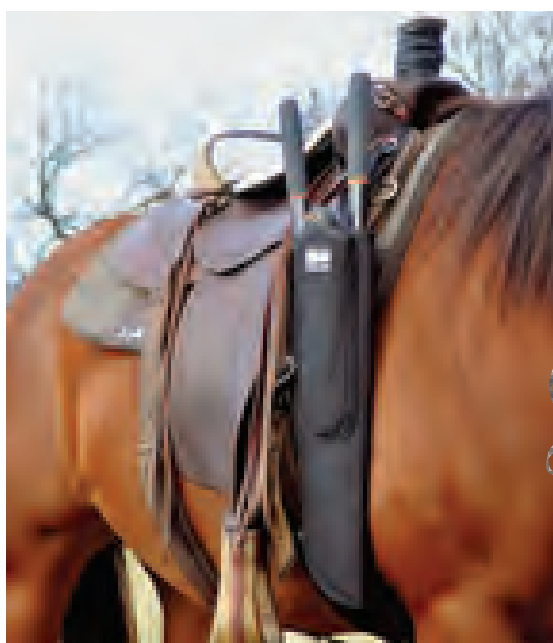

SB-LCH-DL

English Dust Cover

Store your english or dressage saddle safe and protected from the dust particles in the air. The Dust Cover can significantly cut down on cleaning and polishing of your english saddle. Use it every day in the barn or while commuting to an event, keeping your saddle clean, protected and dust free. Black.

Size: 28" x 57"

DC-BLA-ENG

BLACK

BROWN

Lopper / Saw Scabbard

There's no trail you can't navigate with the Lopper/Saw Scabbard. The best way to pack your pruners and a saw, it is built to last and secures to the pommel and front girth. Saw and pruners not included.

SCBPS

Stirrup Slipper

Pocketed slipper keeps your stirrups from scratching your saddle while longeing, hauling or storing. Made of soft quilted poly cotton twill, it lays across the saddle with the weight of the stirrups keeping it in place. Black.

Size: 35" x 8"

STSL

BLACK

BROWN

Western Saddle Cover

CASHEL® SADDLES

Cashel® saddles are made with your security and comfort in mind. We offer versatility in styles great for training, colt starting, pleasure riding, competition, mounted shooting and ranch work.

Cashel® Trail and Trail Blazer saddles are built on the Axis True Fit saddle tree, with a unique fiberglass seat and kiln-dried South Dakota white pine. The bars distribute weight evenly and allow a full range of motion. Double stirrup leather cutouts and a smooth surface with flared edges create a smooth, balanced ride.

Rancher

The Rancher's lower, flatter seat is designed for all day comfort. Larger swells and free swinging fenders keep the rider in a secure position on any horse, over any terrain. This saddle is tough enough for ranch work.

Tree Sizes: 14", 15", 16", 17"
Gullet Size: Standard (6-1/2")

SA-CKRA

Cashel® Trail

The Cashel® Trail has horse and rider's comfort and security in mind. Stirrup fenders are positioned to give the rider a comfortable leg angle for stability. A double padded seat makes a softer ride for long trail rides, and the redesigned larger swells and cantle offer more security. Tie rings are woven into each string set, along with an additional crupper ring. The saddle is 7/8 rigged, and with the AXIS™ tree provides full, even contact to your horse. Chocolate Hermann Oak leather. Weight: 24-1/2 lbs.

Tree Sizes: 15", 16", 17"
Gullet Sizes: Standard (6-1/2"), Wide (7")

SA-CT SMOOTHOUT
SA-CT-R ROUGHOUT

Trail Blazer

The Trail Blazer is built on the AXIS™ tree with Hermann Oak leather for a good fit and durability. It is 7/8 rigged, with plenty of strings and rings and an additional crupper ring for versatility. The Trail Blazer is great for exercising, endurance, colt starting, reining and western pleasure. Its double padded seat and secure pocket, along with the large swells and cantle, provide balance and comfort for a long day in the saddle with less fatigue. If you're looking for a cost effective saddle to cover a variety of disciplines, the Trail Blazer will go the distance. Chocolate Hermann Oak leather. Weight: 27-1/2 lbs.

Tree Sizes: 15", 16", 17"
Gullet Size: Standard (6-1/2")

SA-TB

COWBOY KID SADDLES

Cashel® is proud to offer a youth saddle designed with the young rider in mind. All Cowboy Kid saddles are built with trees and rigging that stand up to hard work. A secure seat pocket, roughout leather, and kid friendly proportions help the young rider maintain correct position and balance. Available in four styles, you are sure to find a saddle that is the perfect fit for your cowboy kid.

These saddles can fit a wide range of riders by adjusting stirrups and adding a seat shrinker. They are tailored to those who wear kids' western jeans size 4 to 14.

Roper

Tailored to help young ropers as they learn the basics, with a horn that is easy to reach and a seat designed to keep them in position. Blocked fenders help keep balance while delivering the loop.

Seat Sizes: 12", 13"

Gullet Size: 5-1/2"

SA-CKRO

Rancher

The Rancher's lower, flatter seat is designed for all day comfort. Larger swells and free swinging fenders keep the rider in a secure position on any horse, over any terrain. Just like the kids who ride them, this saddle is tough enough for ranch work.

Seat Sizes: 10", 12", 13"

Gullet Size: 5"

SA-CKRA

Barrel Racer

Narrow ground seat helps the rider balance for tight turns, with a tall, narrow horn for security and leverage. Prominent swells keep the rider in position as the horse drops, and the higher cantle helps keep the rider from falling behind as the horse accelerates.

Seat Sizes: 12", 13"

Gullet Size: 5"

SA-CKBR

Wade

The Wade saddle offers closer contact to the horse with a traditional cowboy design. Its slightly larger horn cap secures the rope, and the high cantle keeps the rider in position.

Seat Sizes: 12", 13"

Gullet Size: 5-1/2"

SA-CKWA

SOFT SADDLE

The Soft Saddle G2, with its quality construction and innovative design, is great for the trail and for everyday exercising. It provides a balanced ride that is comfortable for horse and rider.

Soft Saddle G2

The Soft Saddle G2 features include a wither handle strap, convenient back dee rings, and removable stirrups. The compact design is flexible yet secure. Weighs just 6 lbs for effortless saddling.
